In response to our question in Volume 37, look what happens in a day in the life of ...

**Jeff Forner of Chaska, MN**

When I'm not playing my Game Boy or Super NES, I'm drawing at my drafting table. It's one of my favorite pastimes, and I hope to be in the business someday. Here are samples:

**Jessica Harrington of Plano, TX**

I enjoy reading, writing, working on the computer, swimming, tap dancing, ballet dancing, arts and crafts, sometimes homework and playing basketball or soccer. I play Nintendo in my free time.

Free time? What free time?

**Brook Kuntz of Sequim, WA**

During the winter I enjoy snow skiing and entering downhill competitions. Tennis and aerobatic flight lessons are my summer highlights, and I plan to get my pilot's license as soon as I can. I'm 16.

**Billy Isife of Phoenix, AZ**

I like to read and go on vacations. I take piano lessons and I played baseball until I broke my elbow. Now I am working on an invention. It's a car that flies, but won't pollute the earth. It uses gas to get up, then switches to solar power to cruise at 55 mph. Besides this, I play my Super NES.

**Gordon Roberts of Ancaster, ON**

During the school year good grades are slightly higher on my priority list than rescuing princesses. I study French, Latin, Italian, Spanish, and -ahem- Klingon. During the summer I babysit, tutor Math and English, and do the bookkeeping for my brother's paper route. My video games help me wind down. P S

"Che'loOni'pu'marFo!" (Klingon for "The Mario Brothers Rule!")

The winning combination of Power Challenge Trading Cards will appear in the Player's Pulse section every month. Remember to check your cards to see if you have a match! If you don't, trade cards with your friends to come up with the correct card combination. There's a different winning combination every month!

**IT'S PICASSO!**

No wonder we enjoy getting our mail!

# ROBOCOP™

CONTEST WINNER

Every 16-year-old wants to have their own car. Danny Smith was sure surprised when he was selected as the Grand Prize winner in our Player's Poll Contest from Volume 35. The streets of Wahoo, Nebraska will probably never be the same again! Danny received the actual RoboCop car which was used during the filming of the movie "RoboCop 2." For various legal reasons, the police lights had to be removed from the top of the car, but

other than that—it's the exact same Detroit cruiser that RoboCop nailed the bad guys with. Danny was just about ready to get his driver's license when he was informed that he won the car. The timing couldn't have been better, huh? Remember to send in your Player's Poll cards!

## EDITOR'S CORNER

If you're a Nintendo Power subscriber, you just received your Top Secret Passwords Player's Guide. Well, what do you think of it? Pretty cool. Especially for free, huh? We put a great deal of effort into providing you with the best gaming information anywhere. That's our job! This Password guide is just one of the many ways we accomplish that. We hope the guide will allow you to overcome (or bypass) some of the obstacles or levels you may have been having trouble with in some of your favorite password games. Can't get by Phobos Man in Mega Man IV? No problem—we've got a solution for you. Oh, by the way... You're welcome!

# JOE & MAC™

## CAVE DUDE TO THE RESCUE

Life wasn't easy for prehistoric cave dudes like Joe and Mac, and it won't be easy for you when you plunge into this wild and woolly action game from Data East. It's really a matter of taste. Seems that all the dinosaurs had a taste for cave folk. One day they came for lunch and made off with all the cave-women. Now Joe has to jump and bawk his way through five stages, trying to get them back. So what about Mac? Don't expect any help from him. He's out trying to score a biontoburger somewhere.

## AN EVOLUTIONARY GAME

### GRAPHIC GENIUS

The theme of Joe & Mac may be primitive, but the graphics are advanced, even when compared to the Super NES version. The parallax scrolling view gives a sense of depth, and the large dinosaur look terror-fic.

### ANIMATE MATTERS

The animation of Joe and his foes adds a lot of fun to this game. Just like Joe, your eyes would probably bug out if a giant T-Rex suddenly lumbered into view with supper in its smile.

# LEVEL 1

JOE & MAC

Each Level in Joe & Mac is divided into two areas with a farmhouse foe at the end. Joe begins his adventure on his home turf where the grasses grow thickly and the volcano belch at the sky. Here, the Pterodactyls are like pesky gnats. Your Stone Ax is all the weapon you'll need in the first part, even against the Baby T-Rex at the midpoint. After that, the Stone Wheel comes in handy.

START

BOSS

## BEWARE OF WEEDS

The Weeds lack speed, but they are on the move. Don't let them get their roots into Joe.

## Ptero Terror

The Pterodactyls come swooping in twos—one high and one low. Keep a stream of Axes flying for protection.

## Flying Axes

You can always keep two Axes in the air. Throw them straight up, forward or backward.

START

BOSS

## HELIOROCKTER

Attack the Heliosciter from the left side of the bronto's shoulder. If you destroy it, you don't have to dodge the bombs.

## TYRANO

The only way to muzzle this tyrant is to jump up toward all those teeth and hit him in the open mouth.

NES

# LEVEL 2

Joe's second journey takes him through the river and along the Cambrian Cliffs. Don't waste time on the Electric Fish—many of them are invincible. The Tiny Triffids, or animated plants, spit dangerous seeds, but they're nothing compared to their big brother at the midpoint. The Cliffs abound with bouncing boulders and a mean green Pterodactyl team from the Pliocene. The Pteranodon rules the end.

## ROCK AND ROLL

Rolling rocks litter this early part of Level 2. Joe should jump over them using his high jump just to be safe. Bashing rocks takes too much time.

## ELECTRIC FISH

Don't waste time on these shocking Electric Fish. Most of them can't be harmed by any of your weapons. Leap over them using Joe's high jump.

## TRIFFIDS

Triffids are plants that hate humans, and Neanderthals, too. Their seeds have the power to knock Joe into the water, and cave dudes can't swim!

## THE STONE AGE

It takes two jumps, one to the top of the cliff and one over the on-coming boulder to escape unscathed.

## JUMPIN' JOE

Use Joe's high jump technique to leap from one upper path to the next, and off the screen for a second. Avoiding the lower area.

# LEVEL 3

JOE & MAC

Go with the flow in the river region. More Electric Fish, Pterodactyls and enemy cave dudes attack Joe, but just keep moving, because none of them are very tough. At the midpoint, the Neohosuar spits water at you. Jump over the water shots and bonk the monster in the head, then jump over the head. Next up is the plateau of Kayemenofore and the Ducentrusan.

START

BOSS

## LOOKING UP

Things will be looking up if Joe keeps a sharp Pterodactyl watch. You can dodge these winged monsters by jumping, moving in midair, and ducking.

## FISH STORIES

Not all Electric Fish are invincible. In this area, only the middle Fish can't be fried. It's still best just to leave the Fish alone.

## POGO JOE

In this final stretch before the boss, Joe should keep hopping to avoid enemies. Press the Control Pad Up continuously and jump again as soon as Joe lands.

START

BOSS

## ANTICIPATION

Anticipate the appearance of this Baby Rex and hit it with three quick Wheels.

## A BETTER AX

This is your last chance to get a better weapon before meeting the boss.

NES

# LEVEL 4

In this area the Stone Age looks more like the "Bone Age." But the bones are actually helpful. Joe has to worry about the other living cavemen and enemies like boulder-throwing missing links, Pterodactyls and the vicious Archaeopteryx. A second Pteranodon swoops on you at the end, but Joe can dodge his attacks easily. As always, the Wheel is your best weapon, so hold on to it.

## JOGGING JASON

Jason can outrun a Triceratops in sneakers, and he can outrun Joe. The best strategy is to hop over him as he charges.

## ROCKY 1

Joe can take the title from this edulithic fighter by going up the rib rather than beneath it to avoid the boulders.

## AVALANCHE

So much is happening that you can't dodge all the rocks or enemies. Try to win some fruit to keep up your strength.

## CHOP THE CHOPPER

Destroy the Helicopter before continuing on. If you dash beneath it, you'll get bombed.

## ARCHAEOPTERYX

This first true bird is a vicious foe. Throw your weapon in volleys into the air.

# LEVEL 5

JOE & MAC

Level Five is the toughest in Joe & Mac's world. Each screen is thick with enemies. Remember that with every 100,000 points, you'll earn an extra life. Since there is no time limit on any stage, you can build up several extra lives before reaching this point to help you make it through the Petrified Forest and Tyranno's Tommy. Defeating the final Sagileocorn is a matter of learning a simple pattern.

START

## AIRCROBATICS

Joe can dodge enemies on the ground and in the air. During a high jump, move Joe to avoid flying foes.

## BIRD BRAINS

Archaeopteryx was one of the snarlier creatures in prehistoric times. You'll have to outwit its numerous attacks.

## T-REX AND FRIEND

The Pterodactyl that swoops in makes the Tyrannosaur a bit tougher than the one you met earlier.

START

## CAVEDUDE DIGEST

Trapped inside the T-Rex's tummy, Joe finds more enemies than ever.

## DINOMAN

This half man/half dinosaur attacks with rocks as Archaeopteryx swoop down.

NES

# CRASH 'N' THE BOYS™

TM

## STREET CHALLENGE

Theodore "Todd" Thornley IV is angry. "Crash" Cooney's Southsiders have trounced his Washington High School Team at every sport in the Spring Hill League. Now, Todd has thrown away the rule book and challenged Crash and his Boys to a five event free-for-all on their own tough turf. He's also enlisted a pair of snobbish Spring Hill squads to show the Boys that "Hillers" can do more than play croquet and nibble on bon bons. Up to four players can join in on this pavement-pound-

ing brawl from American Technos. It's up to you to defend Crash's turf, guide Todd's squad or take another Spring Hill team to the top of the heap. In addition to these teams, you'll also face the computer-controlled Team Thornley. Todd's father, the founder of Thornley Industries, has formed his own team of superstars to make sure that a Thornley family team wins the gold. The Street Challenge has been issued. Get ready to rumble!

# HIT THE STREETS

# CRASH 'N' THE BOYS

The Street Challenge consists of five contests. You can practice a single sport, set up a program of three events or lead your team through the entire tournament, from beginning to end.

## THE TEAMS

Todd and Crash's teams have been getting all of the press, but you can't overlook Spreck's Jefferson High squad or Arnie's crushers from Lincoln High. Team Thornley also shows promise.

## THE EVENTS

The street challengers clash on a barricade-busting version of hurdles, a roof top pole vault, a battle in the public pool, and two other street-wise sports. You'll have to show strength and stamina to come out ahead.

## THE CHALLENGERS

Five fighters compete on each team. By looking at their individual Power, Speed and Defense Ratings, you can determine which rumbler should represent your team in each event. Then you can arm them with special weapons.

# FOUR FIGHTER FRENZY

As many as four players can join in on the Street Challenge. Three events are played with two players going head-to-head. In the other two events, players take turns stepping up to the fight.

## MEDAL EXCHANGE

Take a trip to the shopping mall before every event and exchange medals for equipment. This will give you an edge on the competition. You'll start with five Gold Medals and earn more with every strong showing.

## INFO INN

If you're not clear on the object of the next event or, if your looking for hints, you can check into the Inn and talk to someone who's in-the-know. The cost of advice is a single Silver Medal.

## HEALTH FOOD STORE

After a fighter has competed in several events, he'll probably need a Hit Power boost. Step into the Health Food Store and give your all-star a shot of Power-Up Medicine.

## ITEM SHOP

This all-purpose store offers Sneakers, Armor and Knuckles which will afford you strength and speed. If you buy a kit that includes all three items, you'll save five Silver Medals.

## SPORTS ITEM SHOP

You can equip yourself with items that are designed with the next event in mind at the Sports Item Shop. Use them to power past the goons on the other squads.

# 400 METER HURT-LES

Street-Challenge Hurtles is a contact sport. You can get away with anything! Enlist your speediest runner and load him up with Armor. He'll need the extra protection when the broken Hurtles start flying in his direction.

## THE BEST MAN FOR THE JOB

TEAM	SOUTHSIDE	WASHINGTON	LINCOLN	JEFFERSON
PLAYER	CRASH	NATE	WHEELS	SPRECK

## WINNING TECHNIQUES

Speed is key in this event. You'll also have to demonstrate quick reflexes in order to react to the many obstacles on the track.

### JUMP

The quickest way to clear short and medium-height Hurtles is to jump over them. This may seem like a simple task, but it gets complicated in a hurry when there are other obstacles in the way.

### SLIDE

If a Hurtle looks like it may be too tall to jump over, you can pass it by sliding under the bar. This is also useful for avoiding contact with your competitor.

### BUST 'EM

With the right timing, you can break a Hurtle by barreling into the bar with your shoulder. Just make sure that you pick up the pieces or you'll trip and fall.

## SPECIAL MOVES

If you've got enough Gold to buy top notch weapons and you've mastered the controls, you can perform a few special moves.

### SPIN KICK

The Spin Kick is a must-know technique. Use it to sweep down your opponent in a close race and to blast through barriers.

### HURDLE TOSS

After you bust through a Hurtle with your shoulder, you can pick up a piece and throw it into your opponent's path.

Knock the other guy out of the lead by doing a 360 degree turn with the Jap in your group.

## MEDAL EXCHANGE

In addition to the Spin Kick, there are three other things that you can purchase at the Sports Item Shop for this event.

### TACKS

These sharp items will show up in your opponent's lane when you shell out five Silver Medals.

### GREASER

You can send the other guy sliding out of control for the price of nine Silver Medals.

### SPAZZ ROLL

Seven Bronze Medals will buy you the ability to roll through three Hurtles.

# HAMMER THROW GOLF

**CRASH 'N'  
THE BOYS**

The Spring Hill Public Golf Course is the scene for this odd combination of sports. The object is to hurl a heavy ball and chain into the hole in as few throws as possible. Watch out for hazards on the ground and aim for Medals in the air.

## THE BEST MAN FOR THE JOB

TEAM	SOUTHSIDE	WASHINGTON	LINCOLN	JEFFERSON
PLAYER	CRASH	TODD	SKIP	CLINT

### SPIN & RELEASE

You'll get good distance from your throw if you spin quickly in your wind-up. When you reach your maximum spin speed, the meter will flash.

Spin around quickly to build momentum. Then send the Hammer on its way.

### DANGER ZONES

Water, sand and tall grass on the course cause the Hammer to slow down. Keep in mind the location of the major hazards and plan your throws around them.

If you hit the water, you'll be docked any throw.

Sand and tall grass slow the Hammer cold.

### MEDAL EXCHANGE

#### SONIC SPIN

When you acquire the new Gold Medal, you'll reach your maximum spin speed in an instant.

#### ROCKET

The four Gold Medal now takes your Hammer into a long range Rocket for these holes. Blast off!

# WATER SLAUGHTER

The battle at the bottom of the pool is on. The object of this event is to pummel your opponent and keep him underwater until his energy is depleted. While you're in the deep end, make sure to collect the Gold Medals that flow with the current.

## THE BEST MAN FOR THE JOB

TEAM	SOUTHSIDE	WASHINGTON	LINCOLN	JEFFERSON
PLAYER	CRASH	TODD	ARTIE	SPRECK

### UP FOR AIR

Watch your Oxygen Meter and come up to the surface when it's low.

### HOP AND BREATHE

Jump from level to level while your opponent is underwater.

### ATTACK FROM ABOVE

Jump onto your opponent as he surfaces.

## MEDAL EXCHANGE

Three special items are available for the swimming event. The Chomper is a fish that bites your opponent. The Gum allows you to hold your breath longer than usual and the Webbing increases your ability to swim.

### CHOMPER

Try this fighting fish for 15 Gold Medals and watch your opponent squirm.

### WEBBING

You'll be able to swim faster than before for an investment of four Bronze Medals.

NES

# SKYLINE SCRAMBLE

High above Spring Hills, members of the Street Challenge squads are leaping from one rooftop to the next in the Skyline Scramble. In this high-risk, no-net event, you'll need plenty of speed before you jump or you'll never make it across the wide gaps.

## THE BEST MAN FOR THE JOB

TEAM	SOUTHSIDE	WASHINGTON	LINCOLN	JEFFERSON
PLAYER	CRASH	DOVE	WHEELS	SPRECK

## LOOK BEFORE YOU LEAP

You can use Poles to vault over gaps and Unicycles to ride on ropes. Keep track of where these items can be found.

## KNOW THE COURSE

A map at the bottom of the screen shows the relative size of the buildings and gaps. Study the map as you decide how to cross each expanse and try to find good use of the items that you find along the way.

## POLE VAULT

Green Poles can be found on several Spring Hill roofs. Pick them up and plant them on the edge of the roof after a good running start. If you release at the right time, you'll spring across the gap.

## UNICYCLE

Strong cables are strung between a few of the buildings. If you hop onto a Unicycle before you reach the cables, you'll be able to ride across the gap with ease.

## HANG ON!

If you're only inches short of a clean jump, you can grab onto the edge of the building at the last second and "pull yourself up to safety." Good move!

## MEDAL EXCHANGE

The goods in the Skyline Scramble Sporting Item Shop allow you to turn back for items that you may have passed and bounce after a poor jump.

## RETREAT

Use the Retreat item to back up and collect the appropriate item for the jump ahead. It'll be the best pair of Bronze Medals you ever spent.

## REBOUND

For four Gold Medals, you can bounce back once. For ten Gold Medals, you can bounce back three times. You won't regret this purchase.

# JUDO

## CRASH 'N' THE BOYS

The final event of the Street Challenge program is a black belt battle between the finest fighters on each team. Make sure that you collect the Gold Medals on the edges of the battlefield and keep fighting until the other guy is out.

### THE BEST MAN FOR THE JOB

TEAM	SOUTHSIDE	WASHINGTON	LINCOLN	JEFFERSON
PLAYER	CRASH	TODD	ARTIE	SPRECK

### PUNCH OUT

The Power Punch Meter gauges the strength of your swings. If it's low, you should hang back and rest for a while.

### ENERGY SAPPERS

Try a few basic moves at the beginning of the match in order to wear out your opponent. Then, when his Power Punch Meter is exhausted, you'll be able to execute Special Moves with little resistance.

#### PUNCH

#### KICK

#### JUMP KICK

#### SHOULDER TACKLE

### SPECIAL MOVES

When your opponent is out of Power Punch energy, you can grab him and send him on the way with a special maneuver. Here are a few big hits:

#### GIANT SWING

#### JUMPING FIRE SPITBALL

#### SONIC THROW

#### BODY SLAMMER

### MEDAL EXCHANGE

The equipment up for grabs in the Judo Sports Item Shop will give you extra durability and more fighting moves. The items are expensive, but worth the price.

#### QUICK-UP

You'll recover quickly from injury when you use this 15 Gold Medal item.

#### SONIC JOB

For 15 Gold Medals, you can hit your opponent with a mysterious force.

#### BIG ATTACK

This item will bring more power to your punches for a cost of 25 Gold Medals.

#### SPOOL JOB

By spending only two Gold Medals, you can roll and attack your Judo opponent.

### VICTORY!

After the Street Challenge is over, the winners will be acknowledged for a job well done. Individual fighters are rated on their accomplishments.

#### Grand Champion

## A SUPERSTAR IS BORN!

Let's take a look at where the Mega Man craze started... with the original! It's a true NES classic! When this game hit the shelves in 1987, Capcom defined a whole new type of action game and set new standards for graphics and play control. Even today, with the advent of the fifth NES Mega Man game on the horizon, the original still holds its own. As we've come to find out, the villainous Dr. Wily is not easily thwarted. His scheming has led to the senseless reprogramming of many otherwise useful robots. Dr. Wily has created a place called Monstropolis. Here, he dispatches the formerly good robots to do his dirty work for him. Mega Man is the only robot who resisted Dr. Wily's treacherous tinkering. Dr. Wright, Mega Man's creator, knows that he can count on the blue bomber whenever there is trouble.

### ITEMS

Vital to Mega Man's success are the all-important Items. Without them, all is lost. Proper use of Items can make the difference between achieving superhero and sup status. Some Items appear only once.

Picking up large and small Energy Capsules boosts Mega Man's energy level.

There aren't many Life-ups to be found. Scrounge the maps to locate these off.

The energy level of any weapon can be restored by picking up these handy items.

Found in the Ecosystem Stage, the Master Brace creates maps for Mega Man to use.

### DR. WILY

As a young boy, he was always labeled a troublemaker. Now a dangerous, maniacal old man, Dr.

Wright's former assistant, Dr. Wily, has become disloyal. He is the reason Dr. Wright sent Mega Man on his first mission and he is the reason for all subsequent missions, too!

# MAN™

MEGA MAN

## BOMBMAN

This humanoid replica once used high-powered explosives to clear massive areas of land for Dr. Wright's construction projects. Now he tosses those same bombs at Dr. Wily's request. Watch out—this is one quick robot.

### B 1-UP

Super Joe grabs the 1-Up. Keep your distance and land the steady green maniac.

### A FLEAS!

Fleas usually appear in groups. They want to get under Mega Man's robotic skin. Anticipate the flea jumps and flip off them. Keep moving to avoid the swarm. They won't follow Wily's Wile for long.

### C BLAST BOMBMAN

If you choose Bombman's Stage first, Mega Man will have to special weapons to use against him. That's O.K.—just use some fancy footwork and stay clear of his bombs while blasting him.

## GUTSMAN

The extremely powerful Gutsman was created to lift, transport and destroy huge boulders. He still lifts and moves them, but now Dr. Wily has programmed the bulldozing robot to destroy Mega Man! It'll take a lot of power to stop Gutsman.

### E 1-UP

Hold Left when you fall down the shaft. This allows Mega Man to reach the 1-Up.

### B FLIP ON, FLIP OFF

This may be the most difficult section of the Stage. The moving girders flip down when they cross the gaps on their track. Mega Man must jump to avoid falling when they flip down.

### F GUTSMAN

Jump over the boulders that Gutsman tosses at you and get the gracing POWhouse with a barrage of Bombs that you received from Bombman. Throw the Bombs when you jump up in order to get max distance on them.

NES

## CUTMAN

Before Wily took over, Cutman's main purpose was to fell trees, but now this former logger is only interested in chopping down Mega Man. His boomerang-like Cut Blades are razor sharp!

## FLYING SHELL

If Mega Man hangs on the upper ladder, the shell from the Flying Shell will visit him.

## BLADER INVASION

The goofy-looking Blue Bladers attack quickly! Blast them before they have a chance to grab up on Mega Man. It won't be easy to run from them.

## SLICE CUTMAN

Immediately blast Cutman with the trusty Arm Cannon when he approaches and jumps up, but definitely avoid the Cut Blades he chuckles at you. Wily's boss can also toss the two bodiless Cannon's but if he uses Cutman's Power.

## ELECMAN

Dangerous electrical operations were Elecman's specialty before Dr. Wily got hold of him and crossed his wires. Now this electrician is operating dangerously. His Stage is mostly vertical.

## IT'S A TRAP!

This Large Energy Capsule has been placed in a dangerous location. Leave it alone!

## STEP QUICKLY

Closely watch the timing of the disappearing blocks to learn the pattern, then jump up just before Block #1 appears. Jump up and over to Block #2 just before it appears. Climb up the ladder on the right.

## MAGNET BEAM

Mega Man must get his hand on Galvan's Power 1: remove the blocks. The powerful Elec Beam will clear them away, too.

## FRY ELECMAN

Use the Cut Blades that you get from Cutman against Elecman. These direct hits will quickly fry and dice the heartless electrician. Other weapons will work on him, but not nearly as well.

## ICEMAN

This robot is capable of performing human-like tasks even in extreme, sub-zero temperatures. Iceman's Stage is deep freeze territory. Make sure that Mega Man brings along a weapon that can heat things up.

## MEGA MAN

### LEAPS OF FAITH

The disappearing blocks in this area are intriguing. Jump from #1 to #2 to #5 to #6 and then to #7. Antagonists when each block will appear.

### GREAT, MORE STEPS

This area is a bit trickier than the last. Jump on the blocks in this order: #10, #1, #6, #5, #4, #1 and then #2.

### FOOT HOLDERS

Jump from one Foot Holder to the next when it's safe to do so. Don't jump when they fire!

### DEFROST ICEMAN

Iceman is very difficult to defeat using just the Area Cannon. Choose the Elec Baton to throw the ice cube and lure him into a empty corner. Jump up through the gaps between the Ice Slicer shots and fire at him.

## FIREMAN

Talk about a change in the weather! Mega Man will quickly adjust to the blazing temperatures of Fireman's Stage. Flame Throwers, Fireballs and Lava Pits will test Mega Man's stamina.

### FREEZE THE FLAMES

Using the Ice Slicer that he got from Iceman, Mega Man can slow and freeze the flames that jump up from the Flame Throwers. Most importantly though, the flames serve as traps for Mega Man.

### PUT FIREMAN ON ICE

Mega Man should be able to lead off this fire-headed robot using the Ice Slicer. Keep moving and jump over the flames that Fireman shoots out as he runs back and forth. They're difficult to avoid.

NES

## DIRTY DOG WILY

Knowing that Mega Man could infiltrate his hideout, Dr. Wily has cloned all of the previous boss robots and has placed them strategically throughout his lair. Wily has also added some more tough obstacles for Mega Man to contend with. The man has no shame.

## ROCK MAN

Here's the best tip of the game: fire off an Elec Beam or Rock Man's eye. Respectively, hit the Select Button. The beams will destroy pass through Rock Man's eye. It'll score several hits on its way through. If your shot is aimed and timed perfectly, one shot will do the job!

## BIG EYES

Don't get hit by these comical foes! They will do a lot of damage, but jump and fire at them like there's no tomorrow. Avoid groups of Big Eyes.

## FREE ENERGY

After jumping off the last Foot Holder, you'll receive two free Small Weapons Charges. The great thing about these Charges is that they will support if you sit up to the next room and then come back down. Charge up all of your weapons here!

## STAIR MASTER

If you didn't get the Magnet Beam in the Blaster Stage, you won't get any further than this. Shoot the Beam to create steps to jump to the top.

## GREEN BLADERS

The Green Bladers are very fast. Clear them out before leaving the gaps.

## CUTMAN RETURNS

Here's Cutman again! He's as mean as ever. Watch to defeat him this time to win the first time you shredded him. The Area Cannon is still the weapon of choice to use against him.

## ELEC MAN RETURNS

Once again, these Cutman's Cut Blades at Blaster to short-circuit this electrical monster. With the use of a single Blade, Mega Man can score two of the three necessary hits!

## MEGA CLONE

When Mega Man enters this room, Dr. Wily's cloning machine will create an exact duplicate of our hero. Mega Man must defeat himself to defeat the clone. It's difficult! The Area Cannon seems to be the best Weapon to use against your clone.

## BUBBLE MACHINES

Use Gutsman Power to toss each of the four boulders in the room at the Bubble Machines. For the remainder of the Machines that appear, use the Ace Cannon. Jump up and shoot when the Machine is sucking the room in order to get in as many hits as possible.

## OCTOPUS BATTERIES

Watch the movements of the Octopus Batteries as you dash and end up in their path. They can cause a great deal of damage. Freeze them with the Ace Cannon or the Elec Beam.

## TURBO TUNNEL

Fire constantly when traversing the long Turbo Tunnel to fend off the exploding Killer Bullets. Don't shoot them when they are in close proximity. The explosion will damage Mega Man. If timed properly, they will fly right by.

## FIREMAN RETURNS

Blow out Fireman's flame again with the Ice Skobler. Don't get burned!

## ICEMAN RETURNS

Apply the heat to Iceman with Fireman's weapon. He'll be reduced to a puddle!

## GUTSMAN RETURNS

Gutsman is the last boss you'll have to go through to get to Dr. Wily. Bomb him!

## AT LAST ... WILY

Your final job will be to blast the shield off of Dr. Wily's vehicle. Jump up and shoot the red one. After Wily recharges his energy, roll him using the Elec Beam and the same technique you used against Rock Man by pressing the Select Button. This makes defeating the most sinister doctor too easy!

## FLIPPER FOLLIES

Take another ride on the Flipper. Leap to the ledge before it flips down.

## BOMBMAN RETURNS

Powerful Bombman with the Ace Cannon will be blown the dust for the last time. Move on to the next level.

### Secret Stairs

This tall tower tour includes a few cool surprises. You can skip several floors at a time by uncovering hidden stairs. The first set is on Floor 1. Fight to the area pictured below, then jump and thrust your sword into the air. A door will rise from the floor. When you unlock it and enter the open doorway, you'll find yourself on a stairway to Floor 4.

When you get to this section of Floor 1, jump and swing your sword.

A huge door will emerge from the ground. Unlock it with a key.

By entering the open doorway, you'll get to a hidden set of stairs.

The stairs lead to the beginning of Floor 4. Nice shortcut!

There are four more sets of secret stairs. By swinging your sword in the right places, you can make the doors to these special elevators appear. Their locations are revealed in the following photos.

## Explore the Options

By entering the option mode, you can adjust the difficulty of your adventure, change the character controls and listen to the music and sound effects. Even more options are available with a quick maneuver. Press Down on the Control Pad several times to highlight the word "EXIT" in the option mode. Then press and hold the L and Start Buttons on Controller II, and press the Controller I Start Button. A second option screen will appear, allowing you to change your character's vitality for extra endurance and select a starting floor. You can choose up to the highest floor that you've been on in the current playing session. Since the game already allows you to start on one of eight different floors, you can use this new option screen to step onto any floor in between. Start the game on Floor 33, then reset and choose a new floor.

Press and hold L and Start on Controller II and press Start on Controller I.

A second option mode will appear, allowing you to make two changes.

Increase your character's vitality and select a floor that you've passed before.

You'll be able to go wherever you want to go and last longer in a fight.

Ten more pies will appear in your inventory.

### FROM AGENT #202

#### Unlimited Burgers

There's no need to worry about running out of energy with a special Mystical Ninja password that our agents have cooked up. By keying in the password shown in the next column, you'll start your game in the Amusement Park with an unlimited supply of hamburgers. Even though your inventory will show that you have only 28 burgers, the burger total will never reach zero, no matter how much energy you expend.

Enter this series of digits as your password.

You'll begin in Zone B with unlimited energy.

### FROM AGENT #721

#### Extra Energy

Our agents have discovered that you can earn an energy Power-Up on any Stage Name Treasure Chest if you're persistent. Just jump onto the Chest 255 times and the Power-Up will appear.

Jump onto a Treasure Chest in Stage Name 255 times for extra energy.

#### Fill 'Er Up

On your final approach to Dracula's Castle, you can fill up on Hearts and weapons in a special Power-Up area. Before you walk up the stairs to Dracula's Castle, jump to the left, into the moon. You'll land on an invisible platform. Jump to the left again to reach another platform. When you get to the left edge of the screen, Power-Ups will drop from above. After you're completely charged up, climb an invisible staircase to the first platform, then jump over to solid ground.

This Castle is the site of your own invention with Dracula.

Jump, to the left, onto an invisible platform in the moon.

Jump again to the left, and you'll get a ton of Power-Ups.

After climbing, invisible stairs, you can jump to the white ledge.

# THE FLINTSTONES<sup>®</sup>

## FRED GOES TREASURE HUNTING

Fred and Wilma's anniversary is coming up, and he wants to find something special for her. He found a treasure map on a slate in the quarry, and he's sure that whatever the treasure is will be the perfect gift—if he finds it. Set off on the search with Fred in Taito's Intest Game Boy adventure starring Bedrock's most famous Stone Age rockers, the Flintstones. This time, Fred teams up with a prehistoric Leap-a-saurus as he tromps through the desert and swims through the sea, tramping after treasure. Have a yabba-dabba-doo time!

Fred: "Well, I'm off."

# BEDROCK

After Betty and Wilma wave goodbye, Fred starts his stroll down the streets of Bedrock, taking care not to collide with bad news bunnies, slithering snakes and bomb-dropping buzzards. He can put them out of commission by striking twice with his caveman Hammer, but sometimes it's best to just stun them with a single blow.

## Bedrock Treasures

Coins	22
Gazoos	22
Hearts	2

## STONY STEPS

If you toss out a single Hammer, it stuns enemies and turns them into steps of stone that Fred can use to climb to higher places, like the rooftops. Step lively, though. The stanning stone act is only temporary.

## BIG TIME BAD BREATH

Before you leave Bedrock, you battle a fire-breathing beast who's in no mood to compromise. The encounter is easy if you're on a Leap-saurus. Just stand back and whip Hammers from a safe distance. Attacking on foot is more dangerous.

Wait for the fire breath to die down before leaping in to attack or stand back and throw the Hammer from atop the Leap-saurus. Four hits will down the beast.

## FRED'S ROCKIN' REPTILE

Fred sets off in search of treasure by himself, but along the way he can pair up with a dynamic dinosaur, the Leap-saurus. Fred's pretty much fire-footed himself, but when riding the leaping

lizard he can jump about three times higher than usual. On foot, his throwing range is short, but when he's on the Leap-saurus he can throw the Hammer faster and farther.

The Leap-saurus has tremendous spring in his legs. He easily bounds over high walls.

# DESERT ROCK

## Desert Treasures

Coins 25

Gazooks 25

Hearts 2

After he exits Bedrock, Fred braves the desert in Stage 2. He has two opportunities to pick up Hearts here, and with deadly desert dwellers like armadillos, scorpions and buzzard bombers, they'll come in handy. Collect Coins for extra points and Gazooks for extra lives. Before you exit the desert, you'll find a secret room—if you can find its hidden door.

## QUICKSAND

Is that a sand dune ahead or just a mirage? If you step into the sinking sand patches, you'll be carried away. Stun enemies with the Hammer and use them to step over the shifty sand.

## BONE BRIDGE

They form what looks like a solid bridge, but these bones are brittle. They start to fall as soon as you step on them, so you'll have to hot-foot it across the span as quickly as possible.

## DUNES OF DOOM

After crossing the bone bridge, Fred encounters a series of deadly dunes made of shifting sand. Shoot the Scorpions that sit at the peaks and use them as steps to keep from being pulled into the gullies between the dunes.

## BREAK THE BOULDERS

With a Leapstaurus, you can jump up to the ledge at the end of Desert Rock. Hammer the stone wall to uncover the hidden door, then enter to find treasures.

# CAVEMAN COMPETITION

## STAGE 3

### Test Drive Treasures

<b>Coins</b>	<b>175</b>
<b>Gazoos</b>	<b>50</b>
<b>Hearts</b>	<b>0</b>

Keep your speed up as the screen scrolls and jump to avoid the stone walls.

Collect as many Coins and Gazoos as you can without getting behind the pace.

Caveman cars came hot on the heels of the invention of the wheel, and Fred was one of the first to climb into the driver's seat. The caveman circuit has tons of Coins and gobs of Gazoos. Open it up on level ground and keep your speed up to jump big pits in the road, but slow down and drive carefully to climb over boulders. Collect the treasures you find to get extra lives.

## STAGE 6

### More Treasures

<b>Coins</b>	<b>120</b>
<b>Gazoos</b>	<b>80</b>
<b>Hearts</b>	<b>0</b>

The second driving challenge, Stage 6, is faster and more furious than the first one. This time the gaps are wider and there's water on the course. Don't take too much time collecting treasures. Pick up the pace and watch out for hails of fiery lava that fly from the volcano in the background!

Slow down slightly and jump repeatedly to pick up as many Coins as you can without wasting valuable time. Speed up to jump the huge gaps and big boulders.

The volcano in the distance spews big fireballs when it erupts. You'll have to speed up and slow down to avoid them as they fall.

# DARK SHIP

## Dark Ship Treasures

Coins	50
Gazooz	35
Hearts	3

A cinema scene opens Stage 4, which has Fred taking to the sea in a big, mysterious ship. At the helm: the insidious Igor Stone. It's a funny place to find a Flintstone! The ship has multiple levels and many enemies, including pairs of flying Fish, a robotic crew and shrunken heads on ropes. Dodge the cannon fire while you search the decks for Igor, and look for a hidden room near the beginning.

## BOP THE 'BOT

The Robot behind the barrels can't hurt you from there, but he can't help either. Hammer the barrels to free him, then stun him with another Hammer and use him as a step up to the ledge.

Take aim the Robot, then smack the barrels.

Strike the Robot from behind and step on it.

## DRAGON POWER

The Ledge above is out of reach, but you can enlist the Dragon's help against its will. Throw Hammers at it until it rolls out its long tongue, which you can use as a stairway.

## HIDDEN HOARD

A secret room is hidden behind a wall near the beginning of the stage but you must have the Leap-a-saurus and perform the power throw to find it. Stand in the spot shown and throw the Hammer until it gradually chips the wall away to reveal the hidden door.

# YABBA-DABBA-DOO

# THE SEA BOTTOM

## Undersea Treasures

Coins	11
Gazoos	53
Hearts	2

Hold your breath! Fred takes the plunge in Stage 5. He drops all the way to the sea floor and fights with Lobster, Jellyfish and other marine life on his way to King Rock Castle. Use the Jellyfish as steps and try to tame the tides. Who would have thought that covenens could swim?

## TURN THE TIDE

The wavy, dark lines show where the currents run strong. If you can't avoid them, fight their pull and time your jumps carefully.

Strong currents run back and forth, up and down.

Take the current's pull into account as you leap.

## BEHIND THE WALL

Stand on the boulders shown above and Hammer away at the wall until you see the hidden door.

Keep pounding at the wall until a crackles.

Jump on the remaining spikes to reach the door.

# KING ROCK CASTLE

## Castle Treasures

Coins	25
Gazoos	28
Hearts	3

Wilma's treasure lies in King Rock Castle, the final stage of Fred's search, but you have to fight the King himself to claim it. The castle's halls lead right and left, up and down. Dodge the skulls and bouncing boulders as you leap along ledges to find the Treasure Room.

## STEP IT UP

Skulls aren't all bad. Use them as steps and work your way up to the tops of the narrow corridors.

Use the Skull as a step and work your way up to the ledge.

## TWO TECHNIQUES

If you have the Leap-assaurus, you can blast through walls, but Fred has tricks when he's alone, too.

Break walls down with a powerful Hammer blow.

Use Fred's own angle the Hammer down into pits.

## 6 Golden Coins™

Get set for the biggest adventure in Game Boy history! Super Mario Land 2 follows our Koopa-crushing hero as he returns from victory in Sarasaland to find the citizens of Mario Land in a brainwashed stupor. The

look behind this chaos is a pesky plumber impersonator named Wario who is hiding away in Mario Castle. Mario must uncover Six Golden Coins so that he can enter the Castle and lift the spell from the land.

### FIREMAN!

When Mario finds a Fire Flower and puts a feather in his cap, he can toss balls of flame and beat Wario's drones in a flash.

### ASTRONAUT!

One of the Golden Coins is hidden in the Space Zone. Mario comes prepared with his own Astronaut Suit.

SUPER MARIO LAND 2  
SIX GOLDEN COINS

Dear Mario,

You may have noticed a few changes in your former home. While you were off playing hero in Sarasaland, I took it upon myself to cast a spell over the population and turn the citizens into mindless zombies. I've also moved into the Castle on the hill, so I fear that you'll have to look for new accommodations.

My entire operation is run from Wario Castle and the entrance is magically sealed. The only way to break into this fearsome fortress is to collect the Six Golden Coins and place them at the entrance. The Coins are hidden deep within the zones of the land and guarded by my army of oblivious devotees.

Don't even think of trying to thwart me Mario. It's Wario's World now and there's nothing that you can do to stop my sinister scheme.

Best Regards,  
Your Maniacal ArchVillain,  
Wario

# MARIO LAND REVEALED

There are six multi-stage zones in Mario Land. You'll earn the Golden Coins by clearing the stages of each zone and defeating the zone leaders. Once all of the Coins have been returned to their rightful place at the entrance of Mario Castle, you'll be able to enter the Castle and search for Wario.

Each zone contains several challenging stages.

Extra lives guard the Six Golden Coins.

## SPACE ZONE

Blast off for battle in the zero-gravity Space Zone and collect the Golden Coin before it floats away.

As Astronaut Mario, you float the right stuff to explore the vacuum Space Zone.

Collect Coins and punch boxes for special items.

## TREE ZONE

The giant tree of Mario Land is full of crazed creatures who have been hypnotized by evil Wario.

You'll go believe the soil before you climb the tree.

Some Tree Zone creatures are as sassy as carrots.

## MARIO LAND ENTRANCE

Traditional Mushroom Kingdom creatures populate the stage at the Mario Land entrance.

Warm up with some Koopa Troopa stomping action.

Watch for plumber-consuming Piranha Flowers.

## SLOT MACHINE

The one-armed bandit of Mario Land will reward you with Power-Ups and extra lives if you're lucky. Save up your Coins and give it a whirl.

High priced Pipes award better prizes.

## MACRO ZONE

This humongous house is home to a horde of magnified monsters. Try to cut them down to size.

Ads can throw several times their weight.

How about some light reading?

SUPER MARIO LAND 2  
SIX GOLDEN COINS

## PUMPKIN ZONE

The Jack-O-Lanterns of Mario Land is haunted by a band of ghostly goocis. Beware!

Walk safely as you explore the Pumpkin Zone's haunted grounds.

Ghosts give chase in this zone's dark areas.

## MARIO CASTLE

Wario has claimed Mario Castle as his own. Once you collect the Six Golden Coins, you'll be able to enter the Castle and take it back.

Wario has invaded the Mario "M" to symbolize his takeover.

## MARIO ZONE

This monstrous mechanical replica of Mario was built to honor the leader of the land. Now it's full of dangerous gimes and evil creatures.

Climb the gears to the top of the Mario machine.

The Mario Zone is a mechanical maze.

## TURTLE ZONE

Creatures of the deep inhabit this underwater zone. Use your aquatic experience from other Mario adventures to swim these sunken stages, then collect the Golden Coin from an evil octopus.

Mario takes a plunge in the Turtle Zone.

The shipwreck is an enemy stronghold.

# T TRACK & FIELD™

## A STADIUM IN YOUR HAND

Kanami's Track & Field reproduces the popular arcade and NES games with excellent results. The 11 events range from Archery to the 100 Meter Dash. Some require precise aiming,

while to succeed in others you just need quick fingers and stamina. Go for the gold or play head-to-head using the Game Link cable.

### 100 METER DASH

Finger speed and stamina are all you need to win in this foot race. Use both the A and B Buttons to max out your speed.

Don't jump the gun. Wait for the first light.

### LONG JUMP

The Long Jump requires both strength and good timing. Push your power to the limit on the runway, then jump from the foul line. You control the angle of the jump with the Control Pad. On this and other jumping events, 42° is optimum.

### HAMMER THROW

Spin four times, press the Control Pad to set the angle of your throw and let it rip. Sounds easy, but it isn't.

Push the angle of the throw to between 40° and 50° and release between the angled lines. If you throw at 80° and fall power, you will break down a UFO.

### 110 METER HURDLES

This is the ultimate test of strength and timing. As you run all-out, you must also precisely time your jumps. If you crash into a hurdle, you'll fall flat on your face and lose precious time. If you hit the hurdle, you'll also lose a fraction of a second, but you can recover with foot speed. The World Record of 12.92 seconds will be tough to beat.

### JAVELIN THROW

Push your speed up to the maximum on the runway, then release the javelin at an angle of between 40° and 45°. With a little practice, you should be able to set a record.

# TRACK & FIELD

## WEIGHT LIFTING

Each lift consists of three motions. The Power Meter indicates how much strength you'll need to lift the bar to your shoulders in a squat, then stand up and finally heft it overhead, where you must hold it for three seconds.

When the "Up" sign appears, it means you have enough strength to lift the weight. Go for it.

## ARCHERY

You'll have to make adjustments for distance and wind. At 30 Meters, you won't need any elevation, but at 70 Meters, you may go up to 10°. Adjust at least one degree for every increment of wind.

## TRIPLE JUMP

The Triple Jump requires three jump angle adjustments. Once again, try to get in the low 40° range. You also have to reach maximum power on the runway if you want to set a record, which is almost impossible.

## SWIMMING

The Swimming event requires stamina, power and well-timed breathing. The breathing is really the key. Too many breaths wastes time, while too few reduces your power.

When the arrow appears, it means you should take a breath of air to restore energy.

## DISCUS THROW

This event is just like the Hammer Throw. Spin four times, then aim between the angled lines and hold the Control Pad until you reach 42°.

## POLE VAULT

Set the height, then grab your pole and start the run. When the pole tip is right above the cup, plant it, then release (using the Control Pad) to spring over the bar. Timing and speed are the keys.

## GOING FOR GOLD

Besides setting records, you can compete in all of the events for the All-Around Gold Medal. You'll have to score near-record performances to win the Gold. You must accumulate over 9,000 points just to get the Silver. But whatever your score, you can always improve. That's the real challenge of Track & Field.

Depending on your total score in the All-Around, you can earn a Silver or Bronze medal, or score in the top ranks, but you need over 10,000 points to win the Gold.

## SYMPHONY OF DESTRUCTION

How would I describe Pro Wrestling? Hmmmm. I guess I'd have to say it's like ballroom dancing... in a blender. You're bound to see huge, sweaty bodies flying in multiple directions, bouncing off ropes and climbing, to varying steel cages. You'll hear hoots and hollers from cheering and jeering fans, and the smell of hot dogs, popcorn and spilled cola will fill the air. LJN returns with their second WWF wrestling-fest for Game Boy. Randy "The Macho Man" Savage, Sid Justice, Jake "The Snake" Roberts and their other top WWF Superstars will brawl heads and compete for the title once again.

## OPTIONS

Choose One-On-One to practice with any of the characters. Tag Team allows you to double your wrestling fun. The Tournament Mode will pit you against all challengers. This is a good 2-Player Simultaneous game. Game Link to go head-in-head with a friend.

WWF Superstars 2 has three wrestling options to choose from. Select ONE to compete in the tournament.

You also have the option to hold all of your wrestling matches in the ring or in the mighty steel cage!

## ONE-ON-ONE

WWF  
SUPERSTARS

The One-On-One mode lets you select your wrestler, then the computer randomly selects your opponent for the match. This mode gives you an opportunity to practice with each wrestler. If you're not satisfied, at the end of the match you can choose to have a rematch.

## HULK HOGAN

Hulkamania is running rampant! No one knows that better than the Hulkster himself. He's an extremely formidable opponent, but he's best when he's on your side either as your main wrestler or a part of your tag team twosome.

Get up, Hulk!

The Hulkster is coming back, but he's all behind.

Not Hulk. Really when Sid Justice

Four out of the six pro wrestlers will get a chance to jump into the ring together in a tag team match. Well, not all together, but they'll have a chance to trade off with their tag team partners during the match.

## TAG TEAM ATTACK

## THE UNDERTAKER

From Death Valley and weighing in at 328 pounds, The Undertaker is a dark and menacing character. He'll vow to bury you in the ring! His size is his best asset. His powerful legs can deliver ferocious kicks. Keep an opponent down by stomping on him.

Hulk takes a strong kick from The Undertaker.

He's still leading, but The Undertaker rocks the top.

## TOURNAMENT

It's time to stop the hype, quit boasting and go for it in the ring! This is for the big one: the WWF Belt. An important thing to remember in any match is that you can press the Select Button to make a "comeback"—some of your energy will be restored. You'll get a "second wind," if you will.

## THE MOUNTIE

Hailing from Canada, The Mountie tips the scales at a mere 245 pounds. He and The Macho Man are the lightest wrestlers in the game, but they make up for it with their speed and power.

The Mountie is quickly on his way to pinning Sid Justice. The boots really pack a wallop!

The Mountie meets his match when The Undertaker deep covers him.

# COUNSELORS' CORNER!

## KRUSTY'S FUN HOUSE

### HOW DO I GET IN THE UPPER DOORS IN LEVEL 2?

Derek McClinton

**T**o make a platform appear beneath the three doors in the wall, you'll have to complete the Second Room and kick the Magic Block. Your first job is to rid the room of rats. Lead them to Homer's Rat Zapper, then

jump up just beyond the big upper pipe to reach the higher level. Follow the path to the Bonus Room door and kick the block to enter. Pick up all the items as quickly as you can in the Bonus Room. If you do it fast enough, you'll get a 1-

Up. If you have all the items you'll enter the room with the Magic Block. Once you've kicked that block, the platform will appear beneath the three doors outside and these will be a lock on the door to the third room.

You must complete the third room in Level Two to reach the upper three doors.

After blasting the rats, jump up through the pipes in the exact spot shown here.

Follow the path to the bonus room, then take the secret exit where you'll find the Magic Block.

### ? HOW DO I GET THE MAGIC BLOCK IN LEVEL 3, ROOM 5? ?

**O**nce you enter the room, clear it of rats in the tried-and-true method of blowing them up, then take the two Moveable Blocks to the area that extends upward. To make a stairway, pick up the lower block and place it ahead of you. Keep repeating this until you can jump to the first ledge. Now that you have only one Moveable Block, use the Kickable Block on the first ledge as the first step up and jump to the upper ledge where you'll find the Magic Block to finish the room.

In Level Three, Room Five, you'll have to find a way to reach the Magic Block.

Use the two Moveable Blocks to build stairs. Take the block from behind and place it in front.

# THE LEGEND OF ZELDA A LINK TO THE PAST

## WHERE DO I GET THE FLUTE?

**V**isit the Dark World equivalent of the Haunted Grove. There you'll meet a boy who's been transformed into an animal. He'll give you a shovel and tell you that he once

buried his Flute in the Haunted Grove. Return to the Haunted Grove and dig until you find the Flute. Take the instrument to Kakariko Village and show it to the Old Man. You'll learn

that the Weathervane is a special place. If you go there and use the Flute, a friendly Duck appears. The Duck will transport you to any of eight locations.

In the Dark World Haunted Grove, see the Flute Boy and get the shovel.

Return to the Light World Haunted Grove and dig up the Flute, then go to Kakariko Village.

Talk to an old man in town, then play the Flute near the Weathervane to summon the Duck.

## HOW DO I REACH MISERY MIRE?

**M**isery Mire is inaccessible to wanderers on foot. In the Light World, use the Duck to reach location number six on the desert cliff. If you have the Titan's Mitt, lift the second rock to reveal a Warp Tile. Step onto the Tile and you'll be shuttled to the Dark World region of Misery Mire. Head north through the swamp until you reach the entrance to the dungeon. There use the Ether Mace to open the dungeon's entrance.

Use the Duck to reach the ledge marked with a numeral six above the Desert of Mystery.

Lift the Stone on the ledge and step through to the Dark World area of Misery Mire.

## HOW DO I OPEN THE DOOR IN THE ICE PALACE?

**T**o open the door in the Ice Palace you must push a block over the Trigger Switch in the middle of the floor. You can use the block in the room above, but you must discover how to reach it. You'll have to lower the Blue Gates by hitting the Crystal Switch, then push the lower left block into the hole in the middle of the room. To reach the left side of the room with the block, you must go up to the far left room on the fourth floor, drop through a hole and proceed to the right. Return to the lower floor and place the block on the Switch.

The Switch in the middle of the room opens the shutter door, but you must place a block on it.

After hitting the Crystal Switch, push the block through the hole. Push the block onto the Switch.

# KING'S QUEST

## WHAT SHOULD I DO IN THE DESERT?

The strange desert environment will put an end to your quest if you're not careful, but you still must venture into it to reach the Desert Temple, the Arabian Camp and the Old Shoe. Use the map to skirt the worst areas and to reach the cases where you can get water. First, go to the Temple and hide behind the rock formation to

the right. An Arabian Knight will ride up and open the Temple using the Staff. Once this has happened, go to the Arabian Camp in the south. The left tent is a deadly trap. Instead, enter the right tent. Move quickly but carefully so as not to awaken the sleeping Knight. Avoid the sleeping mat and the bottles, then take the Staff from the Table. Take

a drink of water from the vase outside, then return to the Temple and use the Staff to open the door. Inside you'll find a Red Bottle and a sparkling Gold Coin. Quickly take them and get out. The Old Shoe is found in the middle of the desert. Use it in front of the Bakery to scare a Cat away from a Mouse. The Mouse will be grateful to Gisham.

Enter the right tent in the Camp. Move quickly to the Staff while avoiding the sleeper and bottles.

You can enter the Temple now that you have the Staff. Quickly take the red bottle and Gold Coin.

The Old Shoe is found in the desert and used in town. Throw it at the Cat in front of the Bakery.

## HOW DO I STAY OUT OF ICEBELLA'S DUNGEON?

You'll have to warm the heart of the Ice Queen, Icebella, if you want to keep out of the dun-

geon. As the wolves close in on you, select the Harp from your items, then use it on yourself. The playing of the

Harp will melt the Queen's heart. Instead of locking you up, she will send you on a quest to destroy the Yeti.

Queen Icebella will throw you into the dungeon unless you melt her heart.

As the Guardian Wolves close in, select your Harp and play it for the cold queen.

So moved by the music will Icebella be that she will send you on a quest to destroy the Yeti.

# MEGA MAN: DR. WILY'S REVENGE

## WHAT IS THE BEST ORDER TO FIGHT THE FIRST FOUR BOSSES?

David Carlson

**A**s any Mega Man fan can tell you, there's a right way and a saical way to take on the Robot Masters in each stage. Elec Man should be the first on your list. Use the regular blaster while dodging his pow-

erful Elec Beam. Next, go after Ice Man and melt him with the Elec Beam. During the fight, continue to jump over the Ice Slasher shots while returning fire. The Ice Slasher is the weapon of choice when fighting Fire

Man, the third boss. Just stand your ground and put him in the deep freeze. You'll only have to hit him five times. The last boss of the first four is Cut Man. Use the Fire Storm weapon to defeat him and win the Rolling Cutter.

You can defeat Elec Man by using Mega Man's normal blaster. Just dodge and shoot.

Your second target is Ice Man. Fight with the Elec Beam and jump over the Ice Slasher shots.

Stand your ground against Fire Man, the third boss. Use the Ice Cutter to cool him down.

Cut Man can't stand the heat of the Fire Storm. Of the first group of bosses, attack him last.

## ? WHAT IS THE BEST ORDER TO FIGHT THE LAST BOSSES? ?

**I**n Dr. Wily's Skull-shaped laboratory, four more Robot Masters stand between you and Dr. Wily. Take on Flash Man first. Use the Ice Slasher to defeat him and gain the Time Stopper.

Slow down Quick Man using the Time Stopper and the Fire Storm. Bubble Man is susceptible to the Quick Boomerang. Stay parallel with Bubble Man and continuously fire the Quick

Boomerang. Heat Man is invincible when he's surrounded by fire, so attack with the Bubble Lead after he shoots his fire at you.

Flash Man is the first Robot Master in the Lab area to attack. Use the Ice Slasher.

Use the Flash on Quick Man to drain half his energy, then use Fire Storm.

Blaze Bubble Man with the Quick Boomerang.

Wait for Heat Man to fire, then attack with the Bubble Lead.

# FINAL FANTASY MYSTIC QUEST™

## A FAST-MOVING RPG

Square's latest installment in the Final Fantasy series, *Mystic Quest*, is a role-playing game for the masses. If you've never tried an RPG, or if you think RPGs are too complicated and take too long to get into, think again and give this one a try. Getting started is easy. An old man shows you the ropes then puts you right into the thick of the adventure. You build levels quickly, and the fast-moving,

entertaining dialogue keeps the story interesting. The people you meet tell it like it is—without beating around the bush. The first person you meet tells you point blank that when four powerful crystals were stolen by monsters the four seasons were strangely affected, and the world plunged into darkness. You will search the land and destroy monsters until you find and free the four crystals.

At here, you answer the pleas for help.

You'll need the help of others to slay the monster.

## A WORLD AT WAR

At first, the world is shrouded by misty clouds, but they soon clear to reveal the cold darkness of a planet forgotten by the four seasons. The saga begins in a forest filled with withered, dying trees, abandoned by the life-giving showers of spring.

From there, the hero travels to a desolate desert, a frozen city, and some wind-whipped plains trying to restore nature as we know it.

## ROAD SIGNS

Arrow icons on the map show you where to go. When they flash, the road is clear in the direction they're pointing, but when they're not flashing, there's a roadblock ahead. Press B to enter regions when you reach them.

Follow the flashing arrows to the next area.

## THE WORLD

## LEVEL FOREST IS FIRST

The challenge begins in the area known as Level Forest. A man there asks you to move a boulder that blocks the way to a nearby town, Foresta. When you shove the boulder aside, you'll get Tree Wither,

which the man directs you to take to someone named Kaeli in Foresta. Now follow the flashing arrow to Foresta, explore its streets and buildings, and talk to the townspeople.

## Recruit Kaeli

When Kaeli sees the Tree Wither, she realizes that the trees are endangered and enlists with you to Level Forest.

## Learn The Cure Spell

Cross the bridge, jump over the water on the stumps and enter the back door of the tree house to learn the Cure Spell.

## Brown Town

At first, the town is dried up and the people are aged beyond their years. When you find the Earth Crystal and return to Foresta, you'll find it green and lush like the map to the left, and the people will once again be young.

FORESTA

## Pick Up Potion

Open the chest and get three Cure Potions. Check the chest whenever you return to town to call back better potioneers.

## Take A Nap

Take a snooze in one of the beds here. When you wake up, you'll be revitalized and have full magic and ability meters.

## TEAM UP

## WITH TRISTAM

After the falls the tree in Level Forest, Kaeli becomes ill and you must leave her behind. You won't have to go it alone, though. When you enter the Sand Temple and open the chest there, Tristam will appear and join your crusade. He's more powerful than Kaeli, so he's a welcome addition.

With his Ninja Item, Tristam attacks with power.

# BRAVE THE BONE DUNGEON

Build your level up by clearing monsters out of lairs before you enter the Bone Dungeon. Inside you'll encounter dangerous denizens of the desert, such as Sandworms, Poison Toads and Basilisks. Carry lots of bombs and watch out for shifting sands and the dreaded Sandworm Scratch.

The big skull marks the entrance to the Bone Dungeon.

START

## Rock The Ribs

Big rocks of bones and horns of teeth block Bone Dungeon pathways in several areas. Blast them both with Bombs.

## Bombs Away

You'll use lots of Bombs in the Bone Dungeon. Come equipped and find others in chests.

## Steel Shield

Find the Steel Shield in the Bone Dungeon. It increases defense power by five points.

TO B

## Cause Quakes

The Quake spell, which is powerful Black Magic, is laid down in chests in the Bone Dungeon.

C

TO D

## Star Strike

Starfall is a sure shot with Magic Stars. Find chests that hold extras for you to use.

TO C

B

D

TO E

## Magic Seeds

The Seeds you find here can be used anytime to replenish your party's Magic Points.

## Kaeli's Elixir

The Elixir Kaeli needs is hidden in this chest, but you have to beat Flamerous Rex to get it.

E

## FLAMEROUS REX

When the Rex's form begins to change, you'll be able to tell that your attack is succeeding.

Keep your energy up as you fight the fierce Flamerous Rex, and use Seeds to restore your team's magic when it wanes. When the battle's over, Tristram dives up the treasure, giving you the precious Elixir and taking the handy Dragon Claw before he leaves you to return to Foresta alone.

## WINTRY CAVE

You'll travel alone from Foresta to the Wintry Cave, but there Phoebe will join you. She is a powerful ally who will help you build your level up. Also in the frosty cave you'll find the Libra Crest, which

lets you warp from a Libra Tile in one region to another in a far-off place. Travel to the Libra Temple and step on the tile to see where you end up.

Wintry Cave is north of Aquaria.

### To The Third Floor

The door leads to an upper level of the Third Floor. From there you can look down and see the cave's geography.

### Cling With The Claw

When you fall off the wall of ice, Phoebe gives you the Cat Claw, which enables you to climb slippery slopes.

### False Floor

If you want to collect items from chests, take the long route around to the right. If not, take a shortcut by walking under the false floor in this area.

### Squish Squidite

Beat Squidite to get the Libra Crest. Warp with it to the Libra Temple, get Waterwater and flow Aquaria. Libra is just the first crest, others remain to be found.

## WORLDS OF FIRE AND WIND AWAIT

After you conquer the desert of Foresta and the frozen tundra of Aquana, continue your Mystic Quest by exploring the regions beyond. As you travel, search thoroughly and be sure to clear monsters from all of the lanes you come across. Your victories will raise your experience level and gain the power you'll need for the more difficult enemies that await. When you climb to the top of the Focus Tower, you'll face the fiercest fight of all before you finish your Final Fantasy.

# THE

The screen fills with stars, then the world famous theme music bursts out and the adventure begins all over again. Lucasfilm Entertainment and JVC, along with innovative developer, Sculptured Software, have recreated the cinematic experience for the Super NES, only this time the fate of the galaxy lies in your hands. Super Star Wars truly uses the force of the Super NES, with digitized frames and sound effects from the movie, dazzling Modu 7 effects, never ending challenges and a wide variety of action sequences. It's so hot, you can almost hear it sizzle.

## A LONG TIME AGO, IN A GALAXY FAR FAR AWAY...

The Empire stretches its arm across the galaxy, casting the scattered remnants of the Jedi Knights in a shadow of doom. But even in the darkness a new hope is kindled—if only the rebel alliance can make use of the vital information stored in a little droid's memory banks. The fate of the galaxy falls into the hands of young Luke Skywalker, the aging Obi-Wan Kenobi, the idealistic Princess Leia, and the mercenary Han Solo and his first mate, the Wookiee, Chewbacca. Standing in opposition to the hopes of the rebels is the awesome might of the Imperial Fleet and the dark power of Darth Vader.

# FORCE IS WITH YOU

The magic of Super Star Wars comes from the variety of play, beautifully reproduced Star Wars images and original score, and innovative programming. Fifteen action scenes are interspersed with digitized cinema scenes that tell the tale. When the story calls for Luke to fly a Speeder, you do it; and the Mode 7 rotation effects are stunning! Familiar enemies, like Jawas and Banthas, look and sound like the originals, and many new aliens were created just for the game. This may be the closest most of us will ever get to the Star Wars experience and that galaxy far far away.

# SUPER STAR WARS™

## LUKE SKYWALKER

Young Luke is your only action character until you get to the Cantina stage. He has great moves, like a spin jump and the ability to slide along the ground. He is the only character who can use the Jedi Light Saber. Use the Light Saber during a spin jump to make Luke invincible.

Take the PowerUp items along the way to boost the fee power of your Blaster.

The Light Saber—the traditional Jedi weapon—cuts through enemies with ease.

SUPER NES

**LEVEL 1****DUNE SEA**

Luke is on his own, beyond the confines of his uncle's farm. Fortunately, he's brought his Blaster along, because the alien life forms of the desert attack continuously. Spend some time learning Luke's moves. He can spin jump and shoot at eight different angles. Watch for attackers coming at you from the air, from behind boulders, and up out of the sand.

The Sorriest Pit Monster looks menacing, but if you have the powered up Blaster, just keep shooting from one end of the quicksand pit.

**LEVEL 2****TATOOINE**

The next stage begins with a cinema scene of Luke discovering C-3PO near a crashed escape pod in the desert. R2-D2 has been captured by Jawas, so it is Luke's job to rescue the little droid. In the action scene, you'll pilot Luke's speeder across a plain filled with gibbering Jawas. Blast the gas towers to get extra Jet Fuel and fight in a 360° arena.

Once you blast enough Jawas, you'll be told to head for the Sand Crawler. Pick up some Jet Fuel and go for it.

**SPECIAL ITEMS**

**SMALL HEART**  
Destiny lies in arms Small Hearts. They restore a small portion of your Life Meter.

**LARGE HEART**  
Large Hearts restore more Life Meter, but they are relatively rare.

**SHIELDS**  
The Plasma Shield gives your character temporary invulnerability for about five seconds.

**POINT BONUS**  
The Dark Vader Helmet can multiply your Points so you can earn extra lives faster.

**TIME BONUS**  
Gain 50 Seconds by picking it up more slowly. The Bonus is restored if you wait too long.

**THERMAL DETONATORS**  
The powerful explosion wipes out all enemy enemies on the screen.

**HEALTH SWORD**  
The Health Sword extends the overall length of your Life Meter.

**EXTRA LIFE**  
Owls lips are usually found in hidden places, and they are quite rare.

**LEVEL 4****INSIDE THE SANDCRAWLER**

The interior of the Sandcrawler is crawling with Jawas and their battle droids. Other traps like flame throwers, drill spikes and laser gates will make your passage a risky business. Use Luke's sliding ability to pass the gates. Further inside you'll have to blast ceiling mounted lasers, slide past stompers, avoid a pool of molten lava and more.

**HIDDEN ROOM**

Jump straight into the wall from the right and keep moving left. Luke will come out in a room with Large Hearts, Blaster Power Up and a 1-Up.

## LEVEL 3

# OUTSIDE THE SANDCRAWLER

**SUPER  
STAR WARS**

R2-D2 is somewhere within the giant Sandcrawler, but Luke can't just walk in the front door. Leap from one protruding platform to

another while blasting Jawas and defensive droids. Once on top, laser cannons open fire and the going is even tougher.

**GOAL**

## EXPANDED VISION

If you push the Left and Right buttons, the screen bobs up or down, revealing platforms and enemies that may have been hidden. Use this technique to get in your zone.

**START**

## GATE CRASHING

The only way to get past the Lower Gates is to slide past them when the gates are still up. Stand as close to the Gates as you can without touching them. To slide, push the B button and Down plus the direction you want to go.

**START**

## LAVA BEAST JAWENKO

This giant, dragon-like pet of the Jawaes fires scorching flames, but the point of some of your feet is just as dangerous. Jump between the platforms to dodge the fire as you slink. Make sure you've grabbed all the Health Spheres and Large Hearts in the hall above.

**BOSS**

**SUPER NES**

## LEVEL 5

# LAND OF THE SANDPEOPLE

Sandpeople don't like trespassers, but Luke must find Old Ben Kenobi somewhere in the canyons. This rugged land is filled with a wide range of alien enemies, from Jawas and Sandpeople to desert toads, falling boulders, collapsing bridges and worse. Use Luke's Blaster, collect Power-Ups, and never stop shooting. Just before the last series of jumps, face to the left, jump up and shoot to reveal four Large Hearts. If you make it across the chasm, you'll find Obi-Wan Kenobi.

## HOP TO IT

If Luke steps on the yellow goo left by the toads, he'll be stuck for a few seconds, so try to avoid it. The stone bridges are dangerous traps. Keep moving to the right as they collapse behind you. Blast up and to the right to destroy Jawas and birds on the rocks ahead.

## THE DESERT CAVE

Sandpeople, Jawas throwing bombs, and falling stalactites make the passage through the Desert Cave a perilous one. Shoot constantly ahead of you and above you, but always be ready for a Sandperson to appear from behind. Quickness is your greatest asset.

## BOTTOMLESS PITS

Some of the stone pillars will fall into the bottomless canyon under Luke's weight, but not all of them. Jump to the stable rocks while blasting birds.

## LEVEL 6

# LAND OF THE BANTHAS

With Obi-Wan Kenobi's Light Saber in hand, Luke can battle the giant Banthas, which are weak against a Light Saber attack. This is also a great area to boost your power with Health Swords, Hearts, Bomb-Ups and other items. To continue from the cliff on the far right, jump down to a lower path that is out of sight.

The Mazon Wumpout attacks from the right. Keep it away by blasting it in the head whenever it jumps.

**OUT OF THIN AIR**

One of the main strategies in Super Star Wars is to keep your character Powered-Up as much as possible. Hidden items can go a long way in helping you do this. Throughout the game, invisible items can be revealed by Blaster shots. To discover all the items in an area, keep up a steady flow of Blaster fire, especially when passing through unfamiliar territory.

**1-UP LOOP**

Luke can collect unlimited lives here by first sacrificing one life jumps off the cliff before crossing the Fuel canyon. Fall to the left and you'll land on a ledge. In the area beyond, blast everything to reveal seven 1-Ups. Rocks will tumble down the entire time.

**SKYWALKING**

Luke must live up to his name as a Skywalker while crossing the canyon. The leather winged birds try to knock Luke into the abyss. Use the Left Button to look for stones beneath you.

**GOAL**

**LEVEL 7**

**TATOOINE 2**

More fast Speeder action on the pitted plains of Tatooine awaits Luke before he can reach Mos Eisley. The Jawas double their attack after the loss at the Sanderawler. Your strategy remains the same. Blast Jawas and collect Jet Fuel. Avoid crashing into the damaging rocks and pits at all costs.

## LEVEL 8

# MOS EISLEY

"You will never find a more wretched hive of scum and villainy," said Obi-Wan Kenobi about the space port. In the game, you'll face Imperial Troopers and an arsenal of laser cannons. Use the keys to roll over the spiky plants and blast all the blocks and barrels to find hidden items.

## LEVEL 9

# THE CANTINA

Heed the words of Obi-Wan when venturing into the Cantina: "Watch your step, this place can get a little tough." Here you'll find every type of violent, desperate criminal in the galaxy. They'll fight Luke just for the satisfaction of squashing a human. Watch for caped figures in the background. You can often win Large Hearts from them. Once Chewbacca joins you, you can choose him to fight the last leg. Chewie isn't as mobile as Luke, but he starts out with a longer Life Meter. The Kolar Monster has been waiting for you at the back of the bar. His long neck shoots out. Jump to avoid it while blasting at its head. If you survive all this you'll meet Han Solo.

The Kolar Monster attacks with both arms and a telescoping neck. Jumping to avoid the attacks takes precise timing.

## CHEWBACCA

Chewbacca is a Wookiee from Kashyyyk, 200 years old and getting meaner every year. Luckily, he's on your side. Chewie moves stiffly, but his high jump is exceptional and he can dole. He can use all of the weapons except the Light Saber.

**LEVEL 10****ESCAPE FROM MOS EISLEY****START**

After you shoot 'em up in the Cantina, the Imperial Troopers are doubly anxious to bring you in, alive or otherwise. The race to the hangar where the Millennium Falcon is parked takes you through a fire storm of Troopers in Mos Eisley, to a mini boss Maintenance Droid, down into the hangars filled with bombs and mechanical claws, then up against the toughest boss of all, the Hower Combat Carrier. The map below shows only the later part of this Level.

**THE BEDLAM BELOW**

The claws grab from above and hold you helpless for several seconds. Jump past them when they're extended, or slide or roll by them. The Electric Beams discharge every few seconds. Time your jump to avoid them.

**TWO R**

No matter what  
happens, you're in  
your life. The  
doesn't have to

**ENERGY PITS**

Try to avoid the energy pits at the bottom of the hangar. You can escape from the first easily, but not the second. Jump to the platforms above each pit after blasting the Imperial Trooper stationed there, or take the upper route to avoid the Pits altogether.

## HAN SOLO

Captain Solo is no ordinary freighter pilot. He has a reputation as one of the toughest, smartest and luckiest men in the galaxy. His ambition is to become one of the richest. His specialty move is his rolling ability.

Han Solo can roll along the ground to avoid fire and squeeze through narrow openings. It comes in handy in the hangar.

The Millennium Falcon can directly fire at its boss. First it will lose its body.

## ROUTES

Each route you take for the flight of the Millennium Falcon is dangerous.

## LEVEL 11 ~ LEVEL

## REBELLION IN

### LEVEL 11: DEATH STAR HANGAR BA

"It's not a moon, it's a space station!" The crew of the Millennium Falcon realized the identity of the Death Star too late, for they were already being pulled into the hangar bay by tractor beams. Inside, you'll have to fight your way to the interior of the ship to rescue Princess Leia and turn off the Tractor Beam. Use the metal platforms along the wall to avoid the pits and Tie Fighters.

### LEVEL 12: RESCUE OF THE PRINCESS

Princess Leia is being held in the detention block deep inside the battle station. Service robots and Troopers converge on your character. The Detention Guard Boss is a hovering robot. Troopers also attack during the battle, and you can win Hearts. Use Han from the right side of the room and blast at 45° or straight up.

## EXPLOSIVE DROID

Blow the Droid, then stand clear. Once its robot is deactivated, it explodes. The flying debris can damage your character.

### LEVEL 13: TRACTOR BEAM CORE

The Tractor Beam is housed in a tall shaft. From the bottom, use the moving platforms to jump upwards. You'll come under fire from lasers and Troopers. Once you reach the Core itself, dodge the balls of radiation and blast the Core.

### LEVEL 14: ATTACK ON THE DEATH STAR

"Red Five, I'm going in!" The scene changes to the planet, Yavin, and the rebels' last, desperate attack on the Death Star. Piloting an X-Wing Fighter over the surface of the Battle Station, your goal is to destroy 20 Tie Fighters and 20 Towers. You won't survive hitting a Tower.

### LEVEL 15: THE TRENCH BATTLE

Now only Luke has a chance to fire a Proton Torpedo into the narrow shaft that leads to the core of the Death Star. The view is from the cockpit. Ignore the Tie Fighters and target the incoming shots from the laser cannons.

TO THE BOSS

### OVER CARRIER

The Over Carrier is the first boss in the game. To win, you must first target the rear of the carrier. Then target the rear of the two engine nacelles. Then go for the main machine.

# SUPER SHOOTERS

## JUST BLAST IT!

Atari's *Asteroids* basically started the genre of shooting games. There have been many popular "shooters" released since then. Today, two Super NES titles, *Space Megaforce* from Toho and *Axelay* from Konami, are setting the standards of excellence for video game shooters. Both games feature unique Power-Up systems and fantastic programming. If you're into over-the-top action, these games are for you!

# SPACE MEGA FORCE™

## THE ULTIMATE WEAPON

*The year is 2048. A huge alien object has attacked and demolished all the major cities on Earth. A strange floating city is being constructed by aliens above the Central American rain forests. The Earth Defense Force has elected to send you in with their ultimate weapon, the ED-057, to stop the alien invasion.*

## E.D.F. WEAPONRY

### POWER CAPSULES

The Earth Defense Force has created eight weapons for the ED-057 to use. Each weapon has its own characteristics. By picking up Orange and Green Capsules, you will Power-Up your ship's weapon from the initial level of 0 to the maximum level of 6. Powering-Up your weapon is crucial to survival.

The Orange Capsules upgrade your weapon when gathered in the numbers corresponding to each Area. For example, three Orange Capsules will upgrade your weapon in Area 3.

The Green Capsules don't show up as often as the Orange Capsules. By picking one up, your current weapon will automatically be upgraded to the next level.

### ENEMY ERASER

Green Weapon Capsules have two uses. First, the weapon held by the Capsule is constantly charging so you can wait for the desired weapon to appear before picking it up. Second, if you shoot the Green Weapon Capsule enough times, it will transform into an Enemy Eraser. It acts like a Smart Bomb when you pick it up—it destroys everything!

Fire repeatedly on the Green Weapon Capsule to make it charge into an Enemy Eraser. Now you have total destructive capability!

## CHOICE WEAPONS

When used effectively, certain weapons give the ED-057 tremendous offensive and defensive abilities. Each of the eight weapons available is very powerful and capable of doing the job, but the Multiple

Shot and Circle weapons are what we recommend to get and use. However, you may find that one of the other weapons works better for you. Experiment.

Missiles work very well against enemies approaching from the side.

## MULTIPLE SHOT (MPL)

The Multiple Shot gives you just that: multiple shots. By pressing the R Button, you can direct the stream of shots in several directions. A steady flow to the front is best, but there may be times when you need more shots blasting from the back of the ED-057.

## CIRCLE (CIR)

The Circle could be the best weapon to have. At Level 6, you'll have one satellite circling your ship. At Level 6, you'll have eight large circles to defend the ED-057 from enemy attack. Circles aren't only for defense! You can keep the Circles from spinning by pressing the R Button. Place a Circle directly on an enemy to destroy it.

## SHOOTING GUIDE

## INVINCIBILITY

When you acquire an Orange or Green Capsule, your ED-057 will flash and become invincible for a short time. This will allow you to get out of some sticky situations.

## WEAPONRY LEVELS

The ultimate goal in Space Megaforce is to destroy the alien forces as quickly as possible. The way to accomplish this goal is to have the most powerful weapons available. The ED-057 will be able to Power-Up any of its eight possible weapons by collecting Orange and Green Capsules. Try to reach the fully Powered-Up Level 6.

## HIDDEN ITEMS

There are helpful items hidden behind and enclosed in certain structures throughout the game. Bombs, Capsules and ultra-clusive I-Ups can be found in most Areas. It's a bit odd, but the I-Up sort of looks Lolo-ish! You can find yourself trapped, so don't go chasing after items unless you know you can get back to safety.

When you have the Multiple Shot weapon, you can fire at structures behind you by pressing the R Button. Now you can reach more items.

# STANDARD GAME

The Standard Game consists of 12 Areas. Each Area is unique. Some Areas are longer and more dangerous than others. It's a nice feature of the game. It

helps to break up the action and leads to a greater sense of achievement. You'll also find that some weapons are more effective than others in certain Areas.

You can also choose a Short Game to sample various stages.

## AREA 1

Area 1 is set above the rain forests of Central America. The lush greenery of the forest is a stark contrast to the harsh machine-like terrain of the floating city that the aliens are building. The alien defense systems are fairly weak in this Area. They must not have been prepared to face the kind of resistance that the ED-057 puts up. Pick up and become familiar with all of the weapons as they pass by in the Weapon Capsules. Face Zolba at the end of this Area.

Avoid Zolba's globe spinning ball as it zips across the screen. Give it a wide berth because it moves fast!

## AREA 3

In Area 3, you must guide the ED-057 through the enemy supply base. This is a relatively short Area and the defense systems are comparatively weak. You'll meet up with the boss of Area 3 midway through it. You won't be able to destroy it until the end, though.

The boss moves from side to side. The Spine weapon is good here. It keeps a steady stream of darts hitting the boss no matter where it goes.

## AREA 2

In Area 2, the ED-057 will take off for outer space and arrive at a gigantic space station called Lono. The Circle is probably the best weapon to have here. It will take precise aim to destroy all of the laser and gun turrets on the space station. If the action and speed in this Area are too intense for you, you'll have to pull off some kind of a major miracle to get through the 10 remaining Areas. Attack quickly!

Press the R Button to stop the Circle weapons and hold one of them on top of an enemy.

## AREA 4

The background of Area 4 is like a flowing river of deep space gas. Don't let it distract you—you're on a mission! There are several types of flame throwers in this Area. Some will swing a giant arm of flames, some will shoot out a horizontal

blast. Take these out at the source. Missiles will be especially helpful when you're seeking out the small gun turrets that line the space structure. Destroy Jannel at the end.

Take out the large flame throwers quickly and avoid the expanding moons.

## AREA 5

Apparently, the alien invaders have been demolishing planets for quite some time. Area 5 has debris that had been scraped from the surface of a dead planet. The aliens must be trying to make use of it because they have dispatched numerous Space Drills to create a useable defense formation from the rocks. Blast Nardork, the boss, when its red "eye" is exposed, but avoid its arms.

Shoot the Space Drills only when they've cleared a path and you can fly the ED-057 safely around them.

The long stream of rocks, Nardork, will lead you on a high-speed chase at the end of Area 5. Watch out for the boulders!

## AREA 7

Strategically-placed lasers and missile pods will hamper your progress through the remains of a demolished asteroid. Don't get caught in the laser cross-fire—odds are that you won't make it through in one piece. The heavily-armed Rubar, a small space station, will have to be challenged at the end of this Area.

The pods on Rubar's edge will have to be destroyed one by one. Launch a Bomb at the core.

## AREA 6

You and your ED-057 have reached the enemy's middle base. This is basically a storage facility and therefore is not guarded very heavily. With fully Powered-Up weapons, you should be able to cruise right through it with a low level of difficulty and resistance. The boss drops a load of mines but is not very formidable. You should be able to take it out easily.

Here, List and Blast some more! That's the name of the game. Play it!

## AREA 8

Use extra care when blasting the enemy forces on and around the giant space vessel in Area 8. Patch from the ship's hull will break off and block your forward progress. Shoot the panels, too!

Fire accurately and use a circular motion when engaging with Carrier Boat at the end of Area 8. It moves quickly.

## CLOSE ENCOUNTERS

Monster ships from the Armada of Annihilation have descended upon the peaceful Illis system of planets. As the commander of the Axelay Stratafighter, you are the last hope of the helpless citizens. While similar stories have been told a zillion times in video games, the action, aliens and special effects of this six-stager from Konami ring with originality. The game opens with a head-on battle in an obstacle-filled orbit and never lets up. Exploze weird worlds, blast through high tech hideouts and take on the wildest alien leaders this side of Super R-Type in your fight to free the universe from the grasp of the Armada.

## NEW VIEWS

The action of Axelay is shown in two different perspectives. Odd numbered stages present a head-on view and even numbered stages have a more traditional side view. The alternating change in perspective makes for an exciting and unpredictable playing experience.

Axelay gives you two outlooks on alien blasting action.

## PREPARE FOR COMBAT

Before you start blasting, you can make changes by selecting the Set Up option. The difficulty level, weapon firing speed and even the brightness of the display can be adjusted.

# ARMS INSTALLATION

## STRAIGHT LASER

The Straight Laser sends forth a barrage of full force bolts.

## ROUND VULCAN

This weapon sweeps around the Axelay in deadly arcs at all angles.

## NEEDLE CRACKER

Heat seeking lasers fire in six directions when you use the Needle Cracker.

## WIND LASER

The beams of the Wind Laser surround the Axelay for maximum protection.

The Straight Laser, Round Vulcan and Macro Missiles are yours when the game begins. You'll earn more weapons as you close in on the leaders of the Armada. Install your three strongest weapons at the beginning of each stage and continue your quest for universal peace.

## MACRO MISSILES

You can blast ground targets from above with these powerful explosives.

## EXPLOSION BOMBS

Explosion Bombs spread radioactive acid upon contact with their targets.

## MORNING STAR

This weapon surrounds the Axelay with destructive plasma charges.

Chew up your foes, reanimate combat and get on to destroy the Axelay Armada. At Axelay's side with the Axelay's special weapons.

# STAGE ONE

Enemy forces are patrolling the skies of the serene blue planet, Cusculuses. Restore order by clearing away the Armada's ships and blasting the bases that have been established on orbiting asteroids. Victory will earn you the Explosion Bombs.

## SURROUNDED!

Small enemy ships form a circle around the Axelay early in the stage. Destroy them with the Round Vulcan before they get too close.

Enemy ships converge.

Blow them with the Round Vulcan.

## ARACHNATRON ATTACK

The spider-like Arachnatron will try to catch you in its Web. Steer clear of this red beam and aim for the sensor in the center of the machine. You should also take care of the Arachnatron's mechanical offspring when they appear. Use the Round Vulcan for this task.

Blow the blue sensor when you have a clear shot.

Aim for the center of the spider ship.

Fly away from the Web as it closes by.

Clear away the mini Arachnatrons.

## STAGE TWO

The Tralieb Colony once contained an Illis Defense Force research facility. Now the Armada of Annihilation is using the lab to create new kinds of evil armory. This experimental machinery is hard to get around. You'll have to steer clear of the floating shells even after you've destroyed some of the ships in the stage.

### CRUNCH TIME

On your approach to the T-36 Towbar, you'll encounter two huge barriers that are held up by thin supports. The only way to pass these obstacles is to blast away the supports and fly under the obstacles before they crush down.

Blow through the supports and get out of the way before the barrier falls.

### T-36 TOWBAR

The T-36 Towbar at the end of the Tralieb Colony uses a machine gun and a wide laser to destroy invading forces. Fire on the gun and the blue glowing core as this walking tank approaches. Then fly around to the other side and hit it with Round Vulcan shots.

Stay away from the wide laser beam.

Take out the T-36 Towbar's big gun.

Use the Round Vulcans on the other side.

## STAGE THREE

The planet Urbanate has been devastated by the Armada of Annihilation. All that remains are deserted cities, huge craters and an enemy fleet. Weave around the maze of floating debris, take out the Armada satellites and move on to the Regenertoid.

### BREAK AWAY

Your planetary orbit is packed with floating pipes. If you're cornered by these barriers, fire at the joints to break them apart.

Hit the floating pipes at the joints.

### REGENERTOID

The Regenertoid will materialize when you reach the end of Urbanate. Once you've destroyed the square turrets on the sides of this huge, spinning ship, it will reappear with armor plating. Fire at the center and send it spiraling down.

Hit the turrets on the ship's edge.

Fire on the center of the new ship.

A change will take place when the turret's are gone.

## ▶ STAGE FOUR

AXELAY

Mutant fish and flying snakes inhabit this radiation-poisoned cavern. Use the Needle Cracker to blaze a trail through the organic debris and fight on to Aquadon. When you clear this stage, you'll earn the Morning Star.

### TWO TERRAINS

You can travel through the water as easily as you can fly through the air here. The routes are equally difficult.

Air and water routes both prove to be a challenge.

### AQUADON

The weird creature Aquadon will appear after a rockslide at the end of the cavern. Hit the blue blob near the top of this mutant with the Needle Cracker and avoid the electric beams. You'll sink it in no time.

Send the Aquadon into the rock.

## ▶▶ STAGE FIVE

Lava flows freely on this molten planet. Avoid the huge worms that leap from the lava pools and aim your weapons on the attacking fleet. You'll earn the Wind Laser upon completion of the stage.

### FIERY FIENDS

Fire Dragons will attack in one section of this stage. Aim for their heads. When they're hit, you can fly through the flames.

Fire on the Dragons' heads.

### WAYLER

The red lava parts at the end of this stage to reveal the huge beast, Wayler. Stay away from his fiery fists and steer around his balls of flame. After Wayler has been weakened, his green heart will be exposed. If you concentrate your shots on this area, he'll go down in a hurry.

Fire at Wayler's heart for the best results.

## ▶▶ STAGE SIX

### ARMADA FORTRESS

The remaining forces of the Armada of Annihilation can be found in this final stage fortress. The huge Armada ships can pack a wallop. Stay away from their shots and destroy the ships piece by piece. You'll clash with the vicious Verion at the end of the stage.

SUPER NES

# FACEBALL™

2 0 0 0

Wipe the smile off your face and get ready for serious fun with FaceBall 2000, the first Super NES title from Bullet-Proof Software. The video version of the Virtual Reality sport of the future, FaceBall pits you against smiling cyborgs in either CyberZone or Arena mode as you search the mazes and try to tag them before they tag you.

## HAVE A NICE PLAY!

### ONE PLAYER

### SUPER NES

In the one-player CyberZone Mode, you have to fight your way alone through 41 increasingly complex mazes and eliminate the Master Smiloid.

### TEAM PLAY

Enlist the help of a friend and enter the CyberZone to take on the Smiloid masses together, but don't mistake your partner for the enemy!

### Vs. Play

Take on a friend or play against computer opponents in the Arena Mode. It takes ten tags to win, so watch your back and have a nice day.

### GAME BOY

The Game Boy version had Cyberscape and Arena Modes. In Cyberscape, players searched increasingly complex mazes for keys and flashing exits.

In the Super NES version of FaceBall 2000, rich color and full stereo sound add to the drama of the hunt, and the new CyberZone phase adds to the challenge. Play options let you choose to play alone against the sea of Smiloids, pair with a friend and stage a two-player attack or play against your friend in the Vs. Mode.

## TEAM PLAY IN SEATTLE LEVEL 2 ON THE UNIVERSAL CIRCUIT

CyberZone play takes you around the universe, but it starts in Honolulu and moves to Seattle for the second round. Take one and tag ten enemies to open the exit.

Press X to bring up a map. It shows the room layout and the location of the exit. If you find a Smiloid, it also shows the locations of your feet, partner and enemies.

Flashing Smiloids are actually Pod Drones. When you tag them, they leave Pods containing extra points or helpful items behind. Press B to collect the Pod's contents.

It takes teamwork. In the beginning, the exit is blocked by a black wall. Together you and your partner must tag ten Smiloids to bring down the wall and exit the room.

Always look before you shoot! Your friendly face you might be your partner's if you accidentally tag your teammate. It hurts just as much as an enemy attack does.

Continue searching for Pod Drones even after you've tagged enough holes to clear the exit. Collect as many Power-Up items as you can before you move to the next level!

## TWO-PLAYER TAG, STEP BY STEP

In the Two-Player Mode, the screen splits and shows Player 1's view on top, Player 2's view on the bottom. You can't see other players if they're behind you, but if you see yourself on your opponent's view screen, you know that you're in big trouble! Don't

be a sitting duck—keep moving to make yourself a more difficult target to hit. And if you see enemy fire whizz by, either get out of there or do an about-face as fast as you can! Always sneak a peek around the corners before continuing.

## PLAYER 1

## Kats

Kats, Player 1, can't see his own view screen, but he knows that she's behind him when a red fireball comes from that direction. He must either duck or get higher!

## PLAYER 2

## Leslie

Leslie, Player 2, is able to see that Kats has the same fireball from behind him. He has to get the next shot off quickly to maintain accuracy.

After seeing Leslie's last move, Kats high-tails it out of there again. He can't duck. She chooses fire towards the center of the arena, consequently firing on the 1000 score line. Kats retreats, so he can't get caught only now. He needs for the probability of the upper right corner.

1 DIRECTION  
MOVE NUMBER

It's a bit tricky, but he can't see Leslie choose fire on the center and high-tails before he can fire again. She'll hit him on the 1000 score line probably try to fly low and expect some specials before she can, he has to duck, but she can't duck so far how fast it's hard to move in for the remaining tag.

## NINTENDO POWER

ISSUES IN ISSUES ISSUES

Kats will finish energy as time passes. He needs to duck, but Leslie is in a low position, though Leslie is in the corner and directly against all a shot. She'll be firing a nice shot.

A screenshot of the maze shows that Kats is moving and right around the corner. It also quickly indicates how to avoid obstacles. Leslie has to be thinking about the corner too in the next frame and says, "She's about to hit a nice shot!"

## OFFICIAL CONTEST RULES

To enter, either fill out the Player's Poll response card or print your name, address and telephone number on a plain 3½" x 5" card. Mail your entry to this address:

**NINTENDO POWER PLAYER'S POLL**  
P.O. BOX 97062  
Redmond, WA 98073-9762

One entry per person, please. All entries must be post-marked no later than December 1, 1992. We are not responsible for lost, stolen or misdirected mail.

On or about December 15, 1992, winners will be randomly drawn from among all eligible entries. By accepting their prizes, winners consent to the use of their names, photographs, or other likenesses for the purpose of advertisements or promotions on behalf of "Nintendo Power" magazine or Nintendo of America Inc. without further

compensation. Prizes are limited to one per household. Chances of winning are determined by the total number of entries received. The ratio of prizes to entry cards distributed is 66:1,000,000. No substitution of prizes is permitted. All prizes will be awarded. To receive a list of winners, which will be available after December 30, 1992, send your request to the address above.

**GRAND PRIZE TRIP:** Nintendo will provide Pro Bowl tickets and arrange air travel and accommodations in Hawaii for the Grand Prize winner and one guest. If under 18, the winner must be accompanied by a parent or legal guardian. The winner must also provide written release to Nintendo of America Inc. Estimated value of the grand prize is \$3,000. Exact date of the trip is subject to final determination by Nintendo of America Inc. and to accommodation and airfare availability. Some restrictions apply.

This contest is not open to employees of Nintendo of America Inc., their affiliates, agencies, or immediate families. Void where where prohibited by law. This contest is subject to all federal, state, and local laws and regulations.

# NESTER'S ADVENTURES

SO YOU LIKE VIDEO GAMES, TOO, OUT OF THIS WORLD!

MY PEOPLE STUDY MANY OF YOUR HUMAN WORNS, ARE WE NOW IN, AS YOU SAY, HOT WATER?

NOT YET, BUT JUST LEAVE IT TO ME. I'LL BLAST THESE ALIEN DNEERS UNTIL THEY'RE SEEING SIDEWAYS!

THERE ARE SO MANY BUTTONS TO PUSH, AND SO LITTLE TIME.

ALL CONTROL PANELS ARE THE SAME. THE TRICK IS TO FIND THE ONE UNMARKED BUTTON THAT WILL OBLITERATE THE PLANET, THEN NOT PUSH IT.

I BELIEVE THOSE RIGHT HAND BUTTONS ACTIVATE MISSILES AND LASERS

I ONCE PUSHED A BUTTON LIKE THIS AND IT ALMOST BLEW UP OHIO.

MOST UNFORTUNATE

IF YOU PUSH THE BOTTOM LEFT BUTTON, SIX BUTTONS LIGHT UP. PUSH THE TOP FOUR AND A WHITE BUTTON APPEARS.

WHITE BUTTONS ARE THE WORST! DISINTEGRATORS, DISRUPTOR BEAMS, NUCLEAR DOORBELLS, SO WHAT'S THIS ONE DO?

AH, I NOW SEE. THE HOT WATER IS A GOOD THING TO BE IN.

I SUPPOSE SO, AS LONG AS YOU'RE NOT A TEA DRINKER.

NOO.

## THREE GUYS' OPINIONS ON THE LATEST RELEASES

Guest reviewer Jade Hall joins George and Rob this month for a rundown of recent and near future releases. Jade won the Grand Prize in the Nintendo Power Player's Poll Contest for Volume 36. As part of his prize, Jade and his mother, Raymelle, flew to Nintendo headquarters in Redmond, Washington from their home in Newark, New Jersey so that Jade could meet George and Rob, play the latest games and give us his opinions.

Jade Hall (center) shells out the latest video game hits with George (left) and Rob (right).

### CRASH 'N THE BOYS: STREET CHALLENGE

Crash Cooney and his Southside High team go up against squads from snobbish Spring Hill in an urban version of the summer games.

**GEORGE** This is a good twist on sports event games like *Track & Field*. American Technos plans to feature the same characters in other sports games. The next one is *Ice Challenge*. It should be a lot of fun.

**ROB** From the title, I thought that the game would be a street brawler. It turns out to be a mash-up of low Olympics with midgets jumping hurdles. I wouldn't even give it the bronze.

**JADE** I like the fact that you can buy special sporting goods before you compete in each event.

### JOE & MAC

Wacky neanderthal Joe battles dinosaurs, caveman-eating plants and other ancient enemies in five levels of bone-tossing, fire-flinging action from Data East.

**GEORGE** This game features fun, cartoon-style graphics and a lot of cool enemies. I like it a lot.

**ROB** This version of *Joe & Mac* is very true to the Super NES version in graphic style and play control. I like it, but the fact that Mac is completely absent from the game seems to be kind of silly. I think that they should just change the name of the game to "Joe."

**JADE** I like the caveman settings and the graphics in this game. It's a lot like the Super NES version, but the music is sort of primitive.

### KRUSTY'S FUN HOUSE

*Krusty the Clown's NES puzzle-test* is a faithful translation of his recent Super NES hit. Rats have overrun Krusty's kooky quarters. It's up to you to help him lead the varmints to rat traps by manipulating objects in the house.

**GEORGE** This version of the game is as close to the Super NES version as the limits of the NES allow. I'd recommend it to anyone who likes brain teasers with a lot of humor.

**ROB** The Simpsons meet the Lemmings. This game gets low marks for originality because of its similarity to other puzzlers, but it still is fun to play.

**JADE** You really have to use your head in order to make the rats go where you want them to go. It's not quite what you'd expect from *Krusty the Clown*, but it is a lot of fun.

## THE ADVENTURES OF ROCKY & BULLWINKLE

Everyone's favorite squirrel and moose team make their way to Game Boy with this multi-stage adventure. Shifty spin Boris and Nezaha have stolen valuable items from the Fossilite Falls Rocky & Bullwinkle Museum. Your job is to lead Rocky and Bullwinkle through the city and return the artifacts to their rightful place.

**GEORGE** This is a straight-forward running and jumping game. The characters are fun and the story is well written, but it doesn't offer anything new in its basic design.

**ROB** I'm a huge Rocky & Bullwinkle fan, so you know right off that I'm going to like this game as long as it's true to the character. It is a fun game, but it's also kind of weak in the area of play control. Bullwinkle attacks enemies with a head butt that is pretty ineffective. You have to be right on with pinpoint accuracy in order to be successful.

**JADE** I like this game. The graphics are solid and Rocky and Bullwinkle are fun characters.

Skateboard Crash and Bash, a skateboard ramp event that ends with a flying leap at a Juggernaut on a raised platform.

**GEORGE** This is a fun game, but very difficult. It took me a long time to get past the first week of competition. My favorite part of the game is the dialogue. It's as funny as the dialogue in the Simpsons TV show.

**ROB** The dialogue and story for this game are great and very fitting for the Simpsons, but the events are a little too tough for my taste.

**JADE** Bart Vs. the Juggernauts is a terrific game. It might be a little too challenging, but the fact that it is a little difficult makes me want to keep on playing.

## BLACK BASS LURE FISHING

The first fishing game for Game Boy allows you to test the waters of two lakes, choose from a wide array of lures and go after four types of fish. If you show a real talent for the sport, you'll earn a high ranking.

**GEORGE** Since this game has so many technical fishing terms and features, it seems to be made for real fishing enthusiasts. Casual fishers may be lost in the terminology.

**ROB** It's hard for me to think that this game is anything like true-to-life fishing. Then again, I have as difficult a time catching fish in this game as I do in real life, so it may be right on the money.

**JADE** If you like fishing, you'll like Black Bass. This game is almost like the real thing.

## FERRARI GRAND PRIX CHALLENGE

Join Team Ferrari and get ready for a Grand Prix Formula One challenge against eight other racing teams. Special features include a choice between manual and automatic transmission and special tips from your pit crew.

**GEORGE** There doesn't seem to be much of a sensation of forward movement in this game.

**ROB** This is just another Formula One racing game for Game Boy.

**JADE** Ferrari Grand Prix Challenge has pretty decent graphics and is fun to play.

## THE AMAZING SPIDER-MAN 2

The wall crawler has been framed for robbery. You can help him clear his name by going after the crooks behind the scheme. The game's six levels of villain-crushing action include clashes with Hobgoblin, Carnage, the Lizard and other classic Spider-Man enemies.

**GEORGE** This game has pretty lousy play control. I spent most of my time trying to figure out how to grab onto walls and shoot webbing. It's not at all intuitive.

**ROB** Thumbs down. I don't think that the character looks a lot like Spider-Man and it's very difficult to make him do spider-like things. If it's not easy to swing on webbing and stick to walls, then what is the value of having Spider-Man as the hero of the game?

**JADE** I like the graphics and music. They seem appropriate for Spider-Man. But, I wouldn't play the game for a long time because Spider-Man is very difficult to control.

## BART VS. THE JUGGERNAUTS

The Juggernauts are in Springfield and Bart Simpson has signed up to be a contestant on their bone-bruising TV show. Help Bart conquer these American Gladiator-esque athletes in eight events. The competitions include Marvin Monroe's Hop and Fry, a Basketball game played on an electrified court, and Captain Lance Murdoch's

Race for team Ferrari in Ferrari Grand Prix Challenge from Arcade.

## OUT OF GAS

Your space shuttle has run out of gas and the only way to move on is to collect all of the gas in 64 maze-like stages. The stages are very easy to clear at the beginning and become more challenging as the game progresses with the addition of one-way passages and fuel-sapping enemies.

**GEORGE** Even in the advanced stages, this game doesn't seem to have a lot to it. You simply collect one gas symbol, then move on to the next one.

**ROB** This game is running on empty.

**JADE** I think the graphics and control are pretty good for this game, but it's not very exciting to play.

## STARHAWK

Fly through five alien-filled worlds and save the universe from domination by the leaders of the evil Axar Empire. As you pilot the Starhawk fighter through one dangerous situation after the next, you can earn special weapons and add firepower to your fighter.

**GEORGE** While this game doesn't offer anything new, it is a solid side-view shooter for Game Boy.

**ROB** This one is a pleasant surprise. It turns out to be a pretty fun sci-fi action game with good control and cool enemies.

**JADE** StarHawk is an average alien-fighting space game. You fight through a stage, then you battle a big stage leader. It's been done a million times.

## SWAMP THING

Swamp Thing, the defender of the Bio-Spizac, battles the forces of Anton Arcane in this Game Boy thriller and attempts to stop Arcane's plan to release mutation serum into the atmosphere. You can choose to clear the first three stages in any order.

**GEORGE** I'm getting tired of every video game character saving the environment. It's only a game. I think that we could lighten up a little bit here and go after more interesting villains than greedy industrialists.

**ROB** Fighting aerosol cans and beach balls just doesn't do it for me.

**JADE** I like the fact that the Swamp Thing is the protector of the Earth's environment. This game supports that theme with solid graphics and good play control. As far as I'm concerned, it's a winner.

## SUPER MARIO LAND 2 6 GOLDEN COINS

This follow-up to the most successful Game Boy game to date concerns a new villain who moved into Mario Land while our hero was busy saving Sarasaland. You've got to help Mario clear the six zones of his land and collect the six golden coins. Then enter Mario Castle and battle the evil Wario.

**GEORGE** Everything about this game is top notch. The graphics are great, the new enemies are a lot of fun and the different zones each have their own personality.

**ROB** I like the Bunny suit that Mario finds in this game. I think it's a lot of fun to flip Mario's ears and send him flying over dangerous obstacles.

**JADE** This game is going to be a big hit. It has a lot of cool levels and surprises.

## UNIVERSAL SOLDIER

An experimental agency has been turning soldiers into Ultimate Human Fighting Machines in this Game Boy adaptation of the summer movie Universal Soldier. You control man-machine Luc Devereux as he fights through 10 levels of combat action and tries to uncover a plot involving another soldier-turned-robot, Andrew Scott.

**GEORGE** The main character gets lost in the background a lot in this game because he is so small and his surroundings are so complex. Besides that, it seems to be a pretty average combat game.

**ROB** This game is great! It has good play control, a decent story and, most of all, great weapons. There's a flame-thrower weapon that you can whip around and use to defeat oncoming enemies and there are several multiple-shot guns that are also effective. When you're playing a game where the object is just to blow everything away, you've got to take a look at how things are being blown away to determine if the game is good and this one passes that test with flying colors.

**JADE** I think that Universal Soldier has good action and a few cool weapons, but the graphics and sound aren't that great.

Luc Devaux lights all red and forces in Universal Soldier from Accolade

## BATTLE CLASH

Huge Standing Tanks (or STs) rule over the world in this 21st Century Super Scope shooter. As hero Mike Anderson, you control the ST Falcon. Your mission is to defeat the eight chiefs of the world in one-on-one battles so that you can take on their leader, Anubis, and free the world of his tyrannical reign. Victory will require a steady hand and knowledge of the enemy's weak point. There are three levels of difficulty to challenge your sharpshooting skills.

**GEORGE** This is the second Super Scope Game Pak and the first to use the Scope's Turbo function. The game is a lot of fun, but it may not prove to be very in-depth after several playing sessions.

**ROB** The enemies are very cool in this game. It's a real challenge to figure out how to beat them, especially in the highest level of difficulty. While the game is not very deep, there are a few hidden secrets that should prove to be fun to figure out.

**JADE** Battle Clash is pretty easy to clear in the lowest level of difficulty, but it gets very challenging after that. I like the huge Standing Tanks and the great sound effects.

Set your sights on an army of Standing Tanks in the latest Super Scope shooter, Battle Clash, from Nintendo. Nine fun-on fights take you around the globe to one devastated cityscape after another.

## BLAZEON

An army of Bio-Cyborgs is converging on Planet Earth. As a representative of the Imperial Earth Army, you must pilot the TFF-01 Garbad ship through five alien-filled stages and pull the plug on the Bio-Cyborgs' scheme. If you freeze the cyborgs with Tranquillizer Shots, you can transform into the cyborg and continue your adventure undercover.

**GEORGE** While I like the idea of being able to turn into seven different Bio-Cyborgs, the game is an average side-scroller with very little else to recommend in it.

**ROB** The one thing that gives this space shooter some originality is the fact that you can assume control of the Bio-Cyborgs. Otherwise, it's more of the same.

**JADE** The graphics, music and basic idea for this game are OK, but nothing special.

Join the battle of the Bio-Cyborgs in Blazon from Atlix.

## THE DUEL: TEST DRIVE 2

Put yourself in the driver's seat of a Porsche 959, Ferrari F40 or Lamborghini Diablo and take off for a cross-country race against an equally speedy sports car. There are four courses of varying difficulty and four difficulty settings.

**GEORGE** This is a well-executed game. It gives a sense of driving realism.

**ROB** I like the realism of this game, but it doesn't seem to be much of a challenge. I stayed ahead of my opponent during the entire race in the lowest two levels of difficulty on my first try.

**JADE** I like the view from the driver's seat and the fact that you can see the steering wheel and dashboard. Otherwise, the game is pretty average.

## GEORGE FOREMAN'S KO BOXING

George Foreman's return to the ring has inspired this boxing bank from Acclaim. Guide George through bouts with 15 fictional fighters including speedy Lorenzo "Buller" Luciano, powerful "Earthquake" Harley and unpredictable "Crazy" Miguel Valdes. By demonstrating punching prowess, you'll earn super-punches that will send your opponents spinning. The Super NES version includes digitized graphics and voices. Game Boy and NES versions are also on the way.

**GEORGE** This game is very similar in set-up to Punch-Out! for the NES. The opponents are more realistic in this game, though, and you can challenge a friend in the Super NES and NES versions.

**ROB** I'd have liked this game a lot more if there was a burger-eating bonus round. As it is, the game doesn't really seem to capitalize on George Foreman's personality.

**JADE** The sound effects and graphics are great, but the game gets kind of old after awhile. There's only so much that you can do in such a straight-forward game.

NES and Game Boy versions of George Foreman's KO Boxing are due out soon.

## PHALANX

The Battle Fortress Midas has been taken over by an alien force. You must pilot the A-144 Phalanx Fighter through eight stages of robot-wrecking action to save the day.

**GEORGE** This is an above average space-shooter. The graphics are great and the settings are very inventive. If I had to choose between this game and other recent space-shooters, though, I'd probably pick *Axelay* and *Space Mega Force* before it.

**ROB** If this game was the only Super NES shooter, I would think that it was pretty cool. But, since there are so many other games of its type, it just seems to be an also ran.

**JADE** This game reminds me a lot of *Super R-Type*. I like the fast pace and the wild enemies.

## RAMPART

The walls come tumbling down in this Super NES translation of the arcade and NES hit *Rampart*. Two players control opposing kingdoms and aim their cannons on each other's castle walls. After the damage is done, the players have a chance to rebuild their walls with odd-shaped wall segments. The single player game features battle with opposing ships and a unique slanted perspective.

**GEORGE** I've liked *Rampart* since it was in the arcades. I think that it's a great combination of action and strategy games. The new perspective in the one-player game adds some excitement to this traditionally less exciting playing mode. I also like the new items, like *Super Guns* and *Propaganda Balloons*.

**ROB** *Rampart* is a fun game, but I don't see much of an improvement in this version over the NES version, especially in the two-player game.

**JADE** This game is difficult to figure out when you start playing, but it's a lot of fun when you get the hang of it. I'd continue to play it for a long time.

## SKULLJAGGER

Storm Jaxon fights through seven long chapters of swashbuckling action in this battle over the forces of the pirate Skulljagger. Storm is armed with a sword and he can find special weapons in the form of gum balls. Assorted flavors of gum afford him special abilities. The game comes with a long manual which tells Storm's tale with a long and involved story which includes special playing tips.

**GEORGE** This game is quite a surprise. At first, I thought the gum idea was kind of silly and not very fitting to the theme of the game. Then, I got used to it and had a lot of fun with the great story and cool graphics.

**ROB** I think that it's a great idea to have a game manual that goes into so much detail in telling the story. No matter how good the graphics can be, the best way to visualize a story is in your mind and the manual lets you do that. Also, pirates are just plain cool. I like the game a lot, but found it difficult to play while wearing an eye patch.

**JADE** I like the pirate setting of this game. It has very convincing backgrounds and good character animation.

## SUPER STAR WARS

The Super NES adaptation of this classic movie (now celebrating its 15th anniversary) follows the story almost scene by scene with incredible graphics and sound. Join Luke, Han and Chewbacca as they take off in the Millennium Falcon to save Princess Leia and destroy the ominous Death Star.

**GEORGE** *Star Wars* fans are going to love this game. It's a perfect mixture of the movie story with video game action. Several of the villains in the game aren't in the movie. They add a lot of excitement and challenge to the game.

**ROB** This game should serve as a blueprint for how to make a video game out of a movie. The characters and settings appear very much like they do in the movie. The music is also outstanding.

**JADE** *Super Star Wars* is very cool. The music and graphics are among the best I've seen.

*The opinions of Rob, George & Jade do not reflect the opinions of Nintendo Power Magazine or Nintendo of America Inc.*

## A LOOK INTO THE GAMES OF THE FUTURE

# PAK WATCH

### NINTENDO'S CUTTING EDGE

Nintendo has announced two major innovations for 1993 that will change the video game industry forever. The first to appear (this Winter) is the Super FX chip. This powerful graphics processor will be used inside some Game Paks to allow for unprecedented 3-D perspective effects. One result will be games in which you can

move about freely in a real time 3-D universe. Nintendo also announced that its CD-ROM accessory for the Super NES will incorporate a custom 32-bit co-processor rather than 16-bit. It was the feeling at Nintendo that a 16-bit CD-ROM product would not significantly improve the gaming experience and that a quantum leap forward was necessary. What

this means is that the Super NES/CD-ROM combination will make possible games far in advance of what is possible with 16-bit cartridge games. The release date of the CD-ROM will be dependent upon the availability of quality software, but may occur as early as next August.

This illustration notes the evolution of 3-D graphics from wire frames, to filled polygons, to map textured polygons, which can be generated by the Super FX chip. As everyone can see, there is a world of difference.

## SPIDER-MAN AND THE X-MEN

ACCLAIM

Our first peek at this Acclaim action game came last January at CES. What we saw then was a few screens of impressive looking graphics. Now, *Spider-Man and the X-Men* are about to be unveiled in their debut on the Super NES, and not only does the game look good, it sounds fantastic. The development team at Software Creations composed a rock sound track that may be the most impressive original Super NES music to date. In the game play, you get to control all five super heroes, each with his or her own fantastic abilities. In the opinion of this Pak Watcher, earlier *Spider-Man* games had some awkward control moves, especially when it

came to shooting webs at 45° angles and climbing walls. The extra buttons on the Super NES Control Pad make this *Spider-Man* much easier to control. Back to the game. Each of the X-Men must escape from a Horror World like the

giant toy box from which Wolverine must claw his way out. His claws, by the way, are retractable. Arch-enemy Arcade is responsible for the bedlam. Once you get past the slow first stage, the action starts cooking and doesn't stop.

## BUBSY

ACCOLADE

The full name for Accolade's upcoming cartoon action game is *Bubsey: Claws Encounters of the Furry Kind*. That is only the first of a million puns and gags that make this game such a riot. Although Bubsey, a cool bobcat who hates hair balls, isn't a household name yet, he may soon become one. Faster than a spiked rodent, more animated than a beeping bird, and twice as outrageous as toads with an attitude—that's how Accolade describes Bubsey. This Pak Watcher is here to tell

you that they're right. The Bubsey animation is hilarious and includes 18 different ways that Bubsey can bite the big one, from falling to pieces to getting flattened by a giant cheese wheel. But animation is just the icing on the cake. The play control on the early version was excellent, and the speed was fast. Each area has multiple tracks, meaning you don't have to take just one route. There are hidden warps, places where Bubsey can fly, wild rides on water slides and roller coasters and an ever changing cast of enemies.

What else is there? How about a talking Bobcat. Yep, Bubsey will have a digitized voice and a bag full of one-liners. You supply the cat calls Bubsey will have 16 stages in all, each averaging about four screens tall and ten screens wide, although the largest area is said to be 8 x 22 screens. The pictures shown here use a 64 color palette, but the final version will make use of the Super NES's 256 color palette. Bubsey is still very much in the works, so don't expect to see him cutting around until next Spring.

## SUPER CONFLICT

VIC TOKAI

The original Conflict from Vic Tokai introduced NES players to military strategy. Super Conflict, due out this winter, will take strategy fans even further. One or two players command forces in 55 increasingly difficult scenarios. Combat units (of which there

are 24 types including air, land and sea) are moved over a hex grid map of seven terrain types. Combat animation sequences show the results of the conflict, but also allow you to override automatic weapon choices manually. You can zoom out to view the entire theater of war, or

zoom in to command individual units. As the game becomes more complex you'll have to produce new military units to resupply your forces in the field. If you always wanted to be the Commander-In-Chief, this may be the only way to do it without getting elected first.

## CAL RIPKEN JR.

MINDSCAPE

As soon as Cal Ripken Jr. Baseball arrived from Mindscape, your fanatical Pak Watchers chose teams and went head-to-head for some of the best baseball action yet seen on the Super NES. What stands out is the realism, both in the look and feel. You won't find those scrappy players that are so popular in Japanese Paks like Extra Innings, or reversed controls as in Super Bases Loaded. The options included Player vs. Computer, Player vs. Player,

or Two Players vs. Computer. The League option allows you to play an entire season and a password lets you continue the schedule. A Roster option lets you examine the players' stats before choosing a team—a great idea. If development goes smoothly, this game should be ready for release early next year.

In other news from Mindscape, Terminator for the NES includes side-scrolling action as well as overhead

chase scenes. This game is based on the original movie. As of this writing, Wing Commander was still undergoing development. Look for an update next month. Speedball and Xenon II, both mentioned in an earlier Pak Watch, will be coming out around the end of the year and will provide Game Boy players with lots of fast and futuristic action. Gods, also a transatlantic newcomer, should appear about the same time.

## JALECO'S KINGDOM II

Here's a more in-depth look at some upcoming titles mentioned in Pak Watch last month. This innovative Super NES game from Jaleco was developed by Argonaut Software in Great Britain, and although it is called King Arthur's World, it doesn't really have anything to do with the once and future king. What this game is about is strategy. You have specialty troops that must overcome obstacles, much like the different skills in Lemmings. There are four worlds, each with ever-more elaborate

defenses, and multiple stages within each world. The game is compatible with the Super NES Mouse (a nice touch) and is the first game to have Dolby Surround Sound (great if your system is hooked up to your stereo.)

Although it has been said that an action-packed show like The Young Indiana Jones Chronicles is ideal for a video game, unfortunately this isn't an ideal video game. The cinema scenes captured the TV series' feeling of history, but the action sequences missed the excite-

ment. Blocky graphics and repetitious stages left this Pak Watcher wondering when Indy (young or old) would get the treatment he deserves in a video game.

Jaleco is also coming out with a Game Boy version of Rampart. The castle campaign takes place on land this time, with siege towers and knights as the attacking forces. Special options, like choosing to use simple building blocks with fewer cannons, make for interesting variations. All three of these games should be available early next year.

## MAGICAL QUEST

CAPCOM

So, what's on the horizon other than staggering new technologies? How about the most famous rodent in history? Capcom has created the sort of backgrounds for Magical Quest Starring Mickey Mouse that you might expect in a Disney animated feature film. As Mickey progresses through seven stages, he can take on new powers by changing to an appropriate costume. The action of the early version this Pak Watcher played was non-stop hopping and stomping with the sort of quality action control you expect from Capcom. From the Dark Forest to

Pete's Castle, this Super NES Pak looks like a class act all the way. You should

be able to check it out by December or January.

## BATMAN RETURNS

KONAMI

Batman Returns for the NES has solid, arcade action. Although not created by the same team that brought you TMNT, Batman Returns shares many characteristics of that other super hero series. The cinema scenes are impressive,

but short. Batman can use the Batarang and Bathook, plus he has some special moves, like a flying kick that was directly borrowed from the Turtles. Even the music sounds Turtlesque. Both Batman fans and Turtle maniacs should have fun

with this Pak. As for the long awaited Super NES version, Konami sent us a screen shot to whet our appetites, but they said the game won't be out until next year. We'll update you as soon as we get a demo version of the game.

## MEGA MAN V

CAPCOM

The world's favorite metal hero is back to face another band of robotic bad guys including Gyro Man, Napalm Man and Charge Man, who looks like a locomotive. Expect great control in the latest reincarnation of this NES action series from Capcom. Mega Man must defeat the robo masters to obtain wild weapons that will knock out the remaining foe.

## NBA BASKETBALL

TECMO

Tecmo's latest sports game for the NES, NBA Basketball, borrows from the highly successful Tecmo Super Bowl, and comes up a winner once again. The NBA license means that Tecmo has all the NBA team logos, and the team rosters, as well, so you can play with your favorite team and players. The options are too numerous to catalog, but you can play entire seasons, short seasons, play-offs or pre-season games using Manual, Computer or Coach options. Controlling the action on the court is easy to learn and fast-paced. Although the players tend to blink when they're bunched together, overall the graphics

are solid, especially the close-ups of dunks.

A Super NES version of this game is also under development. An early version seen by this Pak Watcher had virtually

identical options to the NES game, but of course the graphics and sound were considerably better. Look for the NES version by the end of this year, and the Super NES game during the Winter.

# GOSSIP GALORE

Right now there are so many strong titles on the way that it's impossible to mention them all. Here's a quick look at some of the hottest future games. Pro Quarterback is the first Super NES game from Tradewest's in-house development group, Leland Corp. It's a quick and easy game to learn with an emphasis on the passing game. Tradewest continues to work with RARE in Great Britain on Super Battletoads and a second Battletoads for Game Boy. They're also

Prince of Persia

putting together a great looking arcade game for the Tendo. Data East is bringing out a Super NES version of the classic Dragon's Lair. This version features Dirk the Daring in a sword action game with terrific animation. A whole new adventure with stunning Super NES graphics awaits Prince of Persia fans thanks to Konami. DTMC's California Games II for the Super NES combines five sun-and-fun sports, including hang gliding and body surfing. A challenging Super NES game due out soon is Shanghai II from Activision, in which you must match picture tiles to reduce a stack. Jeopardy for the Super NES has Alex Trebek speaking with

Rollerblade Racers

digital clarity. Cybator, a Super NES robotic action game from Konami, looks like a blast, and that's exactly what you do

California Games II

in it. Hi-Tech Expressions will be introducing Mickey Mouse in an educational game for pre-schoolers on the NES. Mickey's Safari in Lemberland teaches the alphabet as Mickey moves from world to world. We just got a glimpse of Rollerblade Racers from Hi-Tech for the NES. This is an obstacle course game that may be as tough as the real sport of in-line skating.

Cybator

Toughness is what it'll take when playing Best of the Best Championship Karate from Electro Brain. Three versions of this martial arts tournament title will be released by the end of the year. The Super NES version has some great graphics and an option that lets you customize the ultimate fighter. The Lost Vikings from Interspy has some revamped heroes. Each of the three Norsemen now has his own personality. More on this Pak later. And finally, look for the Battletoads on your TV the day after Thanksgiving in a 30-minute animated special from DIC. Check your local listings for time and station.

*Our goal is to try and preserve classic videogame magazines  
from years gone by before they are lost forever.*

*Thanks goes out to all the people who make this possible.  
From the original editors and writers,  
to everyone involved in acquiring and digitizing these magazines.*

*People interested in helping us out, in whatever way possible.  
Either by donating classic magazines, scanning, editing or distributing them,  
visit us at <http://www.retromags.com>*

*We are only interested in preserving classic magazines  
that are at least 5 years out of print.*

*We have no desire or intention to profit from these in any way.  
So please, if you come across people trying to sell these releases, don't support them!*

*Thank You and ENJOY!*
